SETTLING A GOVERNMENT.

APPOINTMENTS.

Devilish Ingenuity.

FRANCE.

WILL DECLINE.

LONDON, June 6, 5 A. M.—A special dispatch to the *Times*, from Versailles, says that it is the intention of the Orleans Princes to decline the seats to which they have been elected in the Assembly.

A JOURNALIST DEAD.

M. Auguste Vermorel, the well-known radical journalist of Paris, is dead.

RETURNING.

Members of the Diplomatic Corps are returning to Paris.

FRENCH LOAN.

A new French loan of £100,000,000 is proposed.

SETTLING A GOVERNMENT.

LONDON, June 6.—A letter from M. Guizot published to-day, advocates the validation of elections of the Assembly of the Duke D'Aumale and Prince De Joinville, and the settlement of a form of government for France by a vote of nations.

APPOINTMENTS.

VERSAILLES, June 6.—The *Officiel Journal* announces the following appointments: Lambrecht, Minister of the Interior; Le Frane, Minister of Agriculture; General Cisy, Minister of War; Leon Say, Perfect of the Seine and General Lefio, Ambassador to St. Petersburg.

ELECTIONS.

The *Officiel Journal* also states that the time for holding the supplementary elections has not yet been fixed. Tranquility prevails throughout France.

THE DUTY OF THE ASSEMBLY.

The *Constitutionnel* says: The first duty of the Assembly is to fill its own one hundred and twenty seats; next to assume constitutional power, and finally to order a plebiscite for the determination of the question of a future form of Government.

ARRESTED.

Shumacker, the murderer of Generals Lecomte and Clement Thomas, has been arrested.

TRIALS.

The trial of Rocheforth and Assy has been postponed.

DEVILISH INGENUITY.

Wires have recently been discovered in the sewers of Paris, through the agency of which it was intended to blow up the city.

GAMBETTA.

Gambetta is still at San Sebastian.

CANDIDATES.

PARIS, June 6.—Several of the officials under the Empire will become candidates at the supplementary elections for Assembly.

The *Verite* thinks all ministers who belonged to the Government of the 4th of September should leave the present cabinet. The same journal expresses its opposition to a plebiscite.

The *Journal Debats* praises the course pursued by the English Government and people during the war.

FORTRESSES.

The fortresses proposed for the interior of Paris have been located at Montmartre and Chaumont, and engineers have already commenced work upon them.

IN THE CITY.

PARIS, May 6.—The postal service is now completely restored.

It is announced that twenty thousand Communist prisoners will be sent to New Caledonia. The discovery of important documents rendering new indictments necessary has delayed the trials by court martial at Versailles.

THE PRINCES.

VERSAILLES, June 6.—Thiers, in his conference with the committee appointed by the National Assembly to consider the bill concerning the Orleans Princes, urged that conditions should be attached by which the Princes were not to hold office before the expiration of two years, and were liable to expulsion from France if they engaged in any intrigue looking to their restoration to the throne. It is now noticed that Thiers has ceased to insist on these conditions.

PLACE VENDOME.

The bill introduced in the Assembly for rebuilding the Column in the Place Vendome has been withdrawn.

ENGLAND.

MINISTER SCHENCK WELCOME.

LONDON, June 6.—The *Times* welcomes Minister Schenck to England.

CANADIAN.

LONDON, June 6.—The House of Lords has passed the bill authorizing Canada to organize territorial governments in the country lying between the Dominion and the Pacific coast.

COOLIES BURNED AT SEA.

Advices from Hong Kong, May 26th, report that the ship Coolie, from Macao for Callao, was burnt at sea, and 600 coolies perished in the flames. The particulars received are conflicting.

LONDON, June 6.—The steamship New York arrived at Southampton and the Aleppo at Queenstown. The steamship Baltimore touched at Southampton and the Prussian at Morill.

ITALY.

HIGH MASS.

ROME, June 6.—By order of the Pope a solemn high mass was said to-day in honor of the French priests assassinated by the Communists in Paris.

THE POPE'S JUBILEE.

ROME, June 6.—An encyclical letter has been issued calling on the Catholics throughout the world to give thanks to God on the occasion of the Pope's jubilee.

PHILADELPHIA, June 6.—The third annual exhibition of the National Photographic Association of the United States opened this morning at Horticultural Hall with a picture display of the finest photographic works of art from all parts of the world.

THE FIRE.

The total loss by the fire yesterday in Marshall street was $110,000. There were twenty-six dwellings seriously damaged and twelve others slightly. Insurance on the mill property, $19,000. About forty families had their furniture damaged or destroyed.

HOMEOPATHIC.

The Homeopathists celebrated the twenty-seventh anniversary of the American Institute of Homeopathy, by a convention this morning at Mercantile Library. Dr. Guernsey, chairman of the Committee of Arrangements, delivered an address welcoming the delegates. The President of the Institute, Dr. Bickwith, of Cleveland, responded.

ANOTHER FIRE.

A fire broke out this morning in Commerce street, near Sixth, in the printing office of Spangler & Davis, destroying the upper portion of the back buildings, which were tenanted by Percival & Collins, paper and rags, and C. J. Effroner, gas fixtures. The warehouse of E. K. Frijon & Co., dealers in pistols, guns and ammunition, was damaged by the falling walls. Stock injured by water. Loss about $70,000.

BURNED.

Halloways's shoddy mills, west of Philadelphia, were burned this afternoon. Loss $20,000.

QUINCY.

Murderer Arrested.

QUINCY, June 5.—Capt. Bush, Sheriff of Collin county, Texas, arrived here this morning with a requisition for Stephen Ballou, indicted by the Circuit Court of Collin county for the murder of James P. Golden, of this place, in October last. Ballou has been confined in jail in Chicago for some time past upon indictments for forgery and larceny. Capt. Bush will leave for Texas with the prisoner to-morrow.

RAIN STORM.

A heavy rain storm passed this section this afternoon.

CANADA.

The Toronto Races.

TORONTO, June 6.—The races continued yesterday. The race for mile heats was won by Mohawk; time 1:51. The dash of one mile was won by Primrose; time 1:58¾. The Dominion Handicap of one and one-fourth miles was won by Nettie; time 2:19¾.

NEW YORK.

The New York Central Case—General Grant and Mr. Bancroft—Russian Relations—The Erie Strike—Seven Years.

NEW YORK, June 6, 1871.

THE NEW YORK CENTRAL CASE.

The *Tribune's* Washington special says: The report that the Attorney General will decline to recommend an appeal of compromise in the case of the New York Central scrip dividend tax is incorrect. The case has not been submitted to the Attorney General, but to the Solicitor of the Treasury Department, and he will not act on it until his return from California. The New York Central Railroad Company has secured the services of Caleb Cushing to argue the appeal, and he has applied to Commissioner Pleasanton for certain papers filed with him by the counsel of the road. Mr. Pleasanton refused to give these up, on the ground that upon them he based his decision, and that public safety requires him to retain possession of them. If ordered by the court to produce them he will allow them to be used in evidence, without, however, constructively going out of his possession. The plea of the Railroad Company, that they never had the money on which the tax is levied, and that there is no longer any New York Central Railroad, that corporation having been consolidated with the Hudson River, it is not considered by good lawyers to be valid, especially as the resolution declaring the dividend admitted that it was made from surplus earnings, and no consolidation can deprive the government of its dues. The Collector has been ordered to collect the tax immediately, and if there is any delay in paying it, Commissioner Pleasanton will sieze the property of the Company and sell it according to law.

GEN. GRANT AND MR. BANCROFT.

The *Herald's* Long Branch correspondent says: Gen. Grant, in an interview, stated that Mr. Bancroft, Minister to Berlin, desires to resign and go to Italy to live, but as he is well posted on the San Juan question, to retire him soon would be injudicious. Before October arrives the treaty will be fixed all right, and as Mr. Bancroft has asked to be allowed to resign then, he can do so without injury to our interests. In speaking of General Sherman in connection with the Presidency, Grant, said he, and Sherman were warm friends. He was not prepared to speak for him, but he was pretty sure Sherman would not stand on the Democratic platform. Sherman is no Democrat, and never was. The President is satisfied with Boutwell and his policy, and sees no necessity for a change. He further states that he knew but little concerning the disagreement between Secretary Fish and the Russian Minister, but supposes the affair to be a very trivial one. When reported to him he will be able to say what to do with it if it should be worth while to do anything.

MASONIC GRAND LODGE.

The Grand Masonic Lodge of the State of New York began its annual session at Apollo Hall, in this city, to-day. Grand Master Anthon, in his address, said he had recalled from the Commission their representative to France, and that fraternal relations were impossible with French Masonry and other bodies sharing its errors. The annual reports of various officers of the Grand Lodge were submitted, showing receipts for the past year of $63,854. Total receipts of hall and Asylum Fund to date are $115,873, and the number of members admitted to the order in the State last year were 7,859. The Lodges authorized the Secretary to erase from the rolls the names of members in arrears of dues.

A THEATRICAL CASE.

The Marine Court to-day tried the case of Grau, theatrical manger, vs. Brignoli. The plaintiff testified that Brignoli engaged him for last season as manager of opera in Chicago, that the venture failed and Brignoli paid him nothing. The defence was that Brignoli had an understanding with Grau that he was to be paid nothing until Brignoli made $500 a week profit, which sum was never realized. Verdict for the plaintiff.

CABLEING.

The Atlantic Cable Company to-day announces that the cable tariff for ten word messages, after July 1st, will be ten dollars in gold; date, address and signature to be counted and paid for. The limit of messages to fifty words is removed, and press dispatches hereafter will be charged full rates.

SEVEN YEARS.

John Gebney, who on the 14th of April, attempted to cut down the crucifix in St. Vincent's Catholic Church, and wounded with a knife a man who seized him, was convicted at the Court of General Sessions of felonius assault, and sentenced by Recorder Hackett to the State prison for seven years.

THE PRESIDENT.

President and Mrs. Grant arrived at the Fifth Avenue Hotel this morning from Long Branch, and leave this afternoon for West Point. Numerous politicians, office-seekers and others thronged the hotel, but only a favored few were granted an interview.

THE ERIE STRIKE.

A telegram from Port Jervis states: The strike of the brakemen on the Erie Railway which began at Hornellsville on the western division, has extended to the Buffalo and Susquehanna divisions. The men now demand $2.25 per day, and the pay day the 15th of every month.

ARRIVED.

The steamer Java has arrived from Liverpool.

The steamships City of Washington, has arrived from Liverpool, and the Ville de Paris from Havre.

SEIZED.

The tax collector of Brooklyn to-day seized the organ of the Pacific street Methodist Church because the assessment for street paving was not paid.

HORACE GREELEY.

The public reception of Horace Greeley will probably take place on Friday evening, at the Lincoln Club house, Union Square.

GRANT'S MOVEMENTS.

When President Grant returns from West Point next Monday he will visit Washington for a few days on official business.

DIED.

The wife of Major-General John G. Foster died at the Astor House early this morning.

PERSONAL.

Gen. J. C. Breckinridge is in this city.

NEW ORLEANS.

More of the Flood.

NEW YORK, June 6.—A special dispatch from New Orleans last night says: Twenty-five hundred houses have their ground floors under water, and more than that number of families are to-night homeless and desolate. The canal runs from the heart of the city to Lake Ponchartrain. This is always navigable, ten or twelve feet deep, and the river steamers and schooners perpetually pass and repass. The damage done by the flood is estimated at $500,000. The break began to threaten on Hogan avenue Thursday night. The Canal Commissioners sold to certain persons the right to remove the dirt from the levee to the low vacant lots. On Friday morning one of these men was at work with his cart carrying away the levee at the very point where the weakness was manifested. A colored man named Lucern Tennigean, living by, begged him to desist, for an east wind was blowing and the water of the lake swollen by the immense torrent pouring in from the Mississippi by way of the Bonnet Carre crevasse were rapidly backing up to the city. He was driven away by threats. The next morning a chasm 185 feet wide was opened in the banks. Suits will be entered against the Canal Company to make good the damages.

IOWA.

Extensive Fire.

SIOUX CITY, June 5.—A fire broke out on Third street, in this city, at half-past two o'clock this morning, and completely destroyed three wooden buildings. The loss is as follows: Edward Hean, building, $1,500; insurance $1,000. The building was occupied by Charles K. Noblanch as a tailor shop, and the loss on the stock is $800. N. J. Fumman, building, loss $2,000. insured for $1,200. It was occupied as a milliner store, and the loss on the stock is $200. R. H. Guing, building and photographic gallery, loss $2,500; insured for $800. The fire is supposed to have been started by the explosion of a kerosene lamp left burning in an unoccupied room.

A FRESHET.

The steamboat Miner arrived from up the river at half-past eleven to-day, and reports a heavy rise in the river at Yankton of nearly six feet in twenty-four hours. She came down ahead of it, making the trip from Yankton to Sioux City, a distance of one hundred and seventy-one miles, in the unprecedented short time of seven hours and thirty minutes. The river has come up about three feet here to-day and is still rapidly rising. Reports from up the river say that the indications are that this June will be one of the highest ever known.

GALVESTON.

A Flood.

GALVESTON, June 6.—A terrible storm has prevailed here since last Saturday noon. The wind forced the waters of the gulf on the Island covering it to a depth of several feet on the east part of the city. About two miles of track of the Galveston, Houston and Henderson Railroad is washed away two miles above the city. The bridge across the bay is safe. The steamship Alabama of the Morgan line with a cargo of cattle and sheep from Rockport to New Orleans went ashore twenty miles west of here on Sunday and will probably be a wreck. The bark Virginia Dare, from Cardiff for Galveston with a cargo of railroad iron, went down about six miles east of here Sunday night. The crew consisting of fourteen men, were yesterday taken from the masts where they had been lashed since two o'clock Sunday morning. Many buildings in the lower part of the city, have been washed away. No lives lost. Six inches of rain has fallen since Saturday 2 P. M. The storm also prevailed to a great extent at Houston, and much damage was done there. There were heavy rains at all the Telegraph Stations in the interior.

ST. LOUIS.

Resigned.

ST. LOUIS, June 6.—Ira Duvall, State Superintendent of Public Schools, has resigned. He was a most efficient officer, and declines on account of ill health.

RAILROAD TRANSFER.

The Missouri Railroad is about to pass into the hands of a new company.

Drowned.

BOSTON, MASS., June 6.—Samuel Allen, John Wagstaff, Wm. Alvery, Jno. Warcroft and Wm. Bernford, all young men, were drowned yesterday at North Andover while fishing.

An Important Land Case.

CROP REPORTS.

The Weather Report.

WASHINGTON, June 6, 1871.

THE TREATY IN ENGLAND.

Private letters received in this city from England state that Disraeli will positively support the treaty of Washington. His influence added to that of Sir Stafford Northcote in the House of Commons is expected to carry the majority of the Tory party.

POSTMASTERS SALARIES.

The salaries of Postmasters throughout the country are to be readjusted on the basis of their receipts during July and August of this year. The new schedule of salaries will go into effect July 1st, 1872.

MR. SEWARD.

Mr. H. Risley lately received letters from his daughters stating that Mr. Seward's party were at Suez, May 5th, and were going thence through Egypt. They had already travelled over thirty thousand miles.

IMPORTANT LAND CASE.

An important case, involving the title to nearly two hundred thousand acres of valuable land in Minnesota, has just been decided by acting Secretary Cowan, of the Interior Department. The case was between the St. Paul Pacific Railroad Company and George T. Brett. The latter claimed to have pre-empted the land, while the company affirmed that it was covered by the land grant of March 3d, 1857. Secretary Browning decided that no lands whatever should be conveyed to said railroad company until the right of Mr. Brett to the land in controversy was recognized by the company. The decision was confirmed by the subsequent Secretary. General Cowan to day revised this decision, and all lands due the company will be certified to them, except the tract claimed by Mr. Brett. A warrant will also be issued to Mr. Brett for the lands claimed by him, when the validity of this title will doubtlees be tested in the courts.

THE WEATHER.

The weather has remained sensibly unchanged since Monday afternoon at the Pacific and Rocky Mountain stations. The barometer fell rapidly last night in Illinois, but has recovered to-day and has fallen very generally this afternoon from Lake Michigan to Lake Ontario. The pressure now is somewhat below the average from the Mississippi to the Atlantic. The temperature has risen on Lakes Erie and Ontario. It has fallen from Ohio to Missouri. Southeasterly winds have prevailed during the day on the Atlantic coast and fresh northwesterly winds from Kentucky to Wisconsin and westward. Heavy rain storms have been reported from Illinois to Lake Superior and are now in progress from Indiana to Lake Huron, with threatening weather in Western Tennessee and on Lake Ontario.

Probabilities.—Clear weather is probable for Wednesday from Pennsylvania to Iowa and southward. It is probable that threatening and rainy weather will be experienced from Ohio to Lake Ontario and the extreme eastern States, to-night with partially cloudy and clear weather on Wednesday. The threatening weather which now prevails on the lakes is a remnant of the storm which was at Galveston, June 4th and Key West, June 1st.

SOUTHERN OUTRAGES.

The sub-committee for the investigation of alleged outrages in the South held a meeting which lasted three hours to-day. The meeting was occupied throughout with the examination of Governor Orr, of South Carolina. He stated that he had no personal knowledge of the Ku Klux and did not believe they existed in his section of the State. He expressed an opinion that such an organization did exist in some counties in South Carolina, and that their object was to intimidate colored people from voting at the election in 1872. He believed that the Constitution of the Council of Safety, published in the Charleston *Republican* last February, was the basis of the organization.

BRIGHAM YOUNG'S SON.

The President had nothing to do with the appointment of Brigham Young's son to West Point. The appointment was made by the Utah delegate. The President of the delegation said it was his intention to have asked the Attorney General if he had power to prevent the appointment, and if answered affirmatively would have settled the matter right away. The President said he sent the appointment of Thomas Francis Meagher's son to the War office and it was returned with an endorsement, that the appointment had been made by a New York member of Congress.

NO TRUTH.

There is absolutely no truth in the recently published Washington dispatch stating that Sickles notified the Spanish government that the question of restoring the sequestered estates of American citizens in Cuba must be settled as an alternative of the employment of force. These very claims are referred with all matters in dispute for settlement by Convention, which was recently concluded. The idea of force, therefore, is preposterous.

THE CROPS.

Rumors having been circulated that the Department of Agriculture has predicted a very short crop of cotton in 1872, it is proper to state that no estimates of the growing crop have been made officially, and no reports concerning it have been issued this season. An estimate of the comparative average statement and the condition of the crop will be made in about two weeks.

MORE FAVORABLE.

Reports received at the Internal Revenue Bureau from officers in the South are more favorable than they have been for several months past. No opposition is now made to the collection of taxes in the regions where the greatest trouble formerly occurred.

REVENUES.

The receipts from the Internal Revenue sources for the first six days in the month of June, of the present year, compared with the same time in June, 1870, shows a falling off of nearly five million dollars.

THE STRIKE.

The discontented colored laborers renewed their interference with the white employees on the public works to-day. Several arrests were made, a large force of police preventing any serious outbreak.

NOT TO BE ONE.

The Secretary of State himself is authority for the statement that Fish is not to be one of the arbitrators in the case of the Alabama Claims.

RUSSIA RELATIONS.

Our relations with Russia are very cordial and it would take a great deal to disturb them.

JAMAICA.

Returned.

KINGSTON, June 5.—The British Consul of Maracaibo returned to his post, the British Minister at Careaccas having refused to send gunboats to his assistance.

FIRE.

Advices from Gonaeves to the first contain an account of a terrible fire which destroyed a large number of builings.

COFFEE.

The prospect for a heavy crop of coffee was excellent. San Domingo advices say the crops of all kinds are promising heavy yields.

SAN FRANCISCO.

Irish Exiles.

SAN FRANCISCO, June 6.—The exiles of Erin, Cubly and Burke, received an immense ovation on their arrival from the east last night, and were escorted to their hotel by an immense civil, military and torchlight procession. They addressed an audience of fifteen to twenty thousand people. The eastern correspondents of the party, including Mrs. Sinclair and daughters, Mrs. Albert D. Richardson, Packard Bryant and others, returned from Yosemite this evening after a magnificent trip. The party was stampeded near Inspiration Point by a bear. Nobody hurt. The excursionists leaving for Yosomite rate fifty to one hundred daily.

CINCINNATI.

Drowned.

CINCINNATI, June 6.—Charles Zeger, a young lad, was drowned in one of the Mill Creek ponds last night.

EFFECTS OF THE STORM.

The storm of Sunday broke the Miami and Erie Canal in several places between Franklin and Miamisburg. The canal boat Bernard, in lock at Miamisburg, was sunk during the rain, and the cook of the boat came near drowning.

CHICAGO.

Railroad Meeting.

CHICAGO, June 6.—The annual meeting of the Chicago, Rock Island and Pacific Railroad [illegible] held in this city on Wednesday, June [illegible] election of directors. It is rumored there [illegible] extra stock or cash dividend declared.

Ports.

CITY OF MEXICO, May 30, VIA HAVANA.—Port Ventaza has been closed and Salina Cruz has been substituted. The government is increasing the regular army, which the opposition say is to maintain Juarez in power. Romero has triumphed over his accusers.

NEW HAMPSHIRE.

Murder and Suicide.

CONCORD, June 6.—Louis Ayer shot and killed his wife at Manchester last night, and then shot himself. He may recover. Jealousy was the cause.

ENGINEERING.

This city has never in its political records presented so lively a scene as to-day. All the politicians of the State are here engineering for the organization of the Legislature to-morrow. All but ten of the 167 Representatives are calculated upon as democratic. The Democrats are claiming the organization of the House by ten majority, in which event the Senate vacancies will not be filled until after the convention for counting the Governor vote, as the Senate will not organize if the Democrats are successful. G. W. N. Pittman, (Democratic,) of Bartlett, will be elected president of the Senate, and W. W. Gove, labor reform, of Weare, speaker of the House, and Jas. P. Jackson, of Lincoln, clerk. The Republican members express themselves confidently as to the result of the Republican caucus. Representatives Scott of Keene, and Johnston, of Pittsburgh are ill and not able to be present. The Republican candidate for Speaker will probably be Col. Wm. C. Vatten, of Kingston, and J. H. Benton, Jr., clerk. Well informed politicians calculate on Weston's election as Governor by a close vote, say five, and the Democrats say they can elect him even if the House is organized by the Republicans. Members are not called upon to be present before this evening, but there is already a larger relative representation of members elect present than ever voted in the organization of the Legislature.

THE ELECTIONS.

There is no reason to change the prediction that Weston will be elected. No doubt a majority of the House is made up of heretofore Republicans, but for one reason or another they will coalesce with the Democracy.

TITUSVILLE.

Oil Market.

TITUSVILLE, June 6.—The *Courier* reports the Petroleum market as follows: Sales—Upper Road, 1000 bbls spot, $4.97½; do do, 2000 do do $5; do do, 2000 do B. O. June, $5.10; do do, 3000 do B. O. June, $5.12½; do do, 2000 do S. O. sixty days, $5.02½. Petroleum Centre, 600 do regardless, $5.15; do do 500 do do, $5.20; do do 1000 do do, $5.20. Lower Road, 3000 do B. O. June, $5.25; do do, 3000 do 45 gravity, $5.30. Oil City, 1000 bbls 47 gravity $5.40. Coal City, 4000 bbls gravity, $5.25.

The excitement of yesterday continued to-day and slightly moderated, but was principally confined to the Lower Road. Prices have slightly advanced, the highest ruling at the close. Short interest was apparently convinced that no lower prices would be paid before July. Settlements were made as rapidly as possible. Upwards of 25,000 bbls, first contracts, were settled for to-day on the Lower Road at $5.20, and 6,000 bbls of oil are in demand. On the Upper Road there was a moderate business done, but $5 is well established in the market for spot. On the Lower Road the figure was $5.25, at which settlements were effected. At Oil City there was very little offered at less than $5.50, too high for buyers; no more than $5.40 was paid.

ASPINWALL.

Panama and Peru.

ASPINWALL, June 2, via KINGSTON, June 5.—The affairs of the Isthmus of Panama are quiet. Advices from Peru state that the prosperity of the country is increasing.

BOLIVAR.

Bolivar dates to the 10th of May have been received. The Ministry were unpopular. The Indians are warlike and threatening and had seized several haciendas. There were several candidates for the Presidency and troubles were expected.

GAUTEMALA.

Gautemala dates to the 19th of May have been received. The Revolutionists had captured Esquintla. The inhabitants were highly incensed at the Government and affairs were threatening.

THE RIVERS.

CINCINNATI, June 6.—River eight feet—fallen six inches. Arrived—Hudson from Wheeling; Palestine and Charmer from Evansville. Departed—Hudson for Wheeling; Annie Laurie for Kanawha; Abercona for St. Louis. Weather hot and showery this afternoon and evening. Business dull.

Arrived—Lioness, Mary Houston, Nick Longworth from New Orleans. Argosy from New Orleans to Cincinnati expected to-night.

VICKSBURG, June 6.—Down—Groesbeck, M. J. Wicks, W. S. Pike. Up—H. C. Yeager, Belle of St. Louis. Weather warm. Heavy rains continue and planters are very much discouraged. River falling at the rate of one foot per day.

NASHVILLE, June 6.—River rising with six feet on Harpeth shoals. Weather fair and oppressively warm. Arrived—John Lumsden, Cairo. Departed—Burksville, Upper Cumberland.

NEW ORLEANS, June 6—Departed—R. E. Lee, Vicksburg; Glencoe, Louisville; Kellogg and barges, St. Louis; Virginia, Louisville; John Kyle and Pauline Carroll, St. Louis.

MEMPHIS, June 6.—Weather clear and warm. River falling. Up—Natchez and Julia. Down—City of Vicksburg, Indiana and Legal Tender.

Live Stock.

BUFFALO, June 6.—The cattle market continues dull, although the receipts are somewhat lighter, there being only 279 cars to-day against 317 for the same day last week, and nearly half of them are going east in first hands. Advices from the west and east were such as to keep off buyers, but a few sales were made to local butchers. The market is ⅛c lower than last week, and the supply is of a good quality. The sales reach about 125, as follows: 50 Ohio steers weighing 1222 to 1370 lbs at $5@5 80; 54 Illinois, 1110 to 1312 lbs, $5@5.85, and 16 do on private terms. Sheep are firmer; 3 loads Kentucky lambs went through east in first hands; sales 413 weighing 80 to 90 lbs at $4.75@5,18. Hogs: receipts of 92 cars; 80 went east, there being no demand; 296 sold at $4 32@4.37½.

WATERFORD, MASS., June 6.—The receipts of beef cattle were 346 head; offerings are generally of good grades, and prices have fallen off fully ¼c per cwt; sales of choice at $10,25; extra $9.75@10; first quality $9.50; second quality $8@9,50; third quality $6@7.50. Sheep and lambs—receipts, 889; prices remain about the same as last week; sales in lots at $5.75@6.75 each; extra $6.75@9.50; veal calves $5@12.

Decoration Day—Returning Thanks.

HD. QRS. EXECUTIVE COM. G. A. R., PITTSBURGH, June 6.

At a meeting of the committee held Monday it was resolved that the thanks of this committee be and are hereby returned to Mrs. Samuel McKee and other ladies of the Monumental Committee, also to Messrs. Bachelor, Gormley and others of the Subsistence Committee, for the very complete and ample arrangements made by them for the entertainment of the soldiers' orphans from Philipsburg and Uniontown, on the occasion of their visit to Pittsburgh on the 30th of May.

To Mr. Jno. H. Harvey and the many others who kindly furnished conveyances for their children, as well as to all citizens who liberally contributed to their entertainment.

Thanks are also tendered to Mr. A. M. Marshall, of Allegheny, who kindly allowed the Committee the use of his grounds for a resting place for the orphans; also, to General T. A. Rowley for the courtesy extended in halting his Brigade to permit the Grand Army and their orphan guests to pass to the right of the column upon returning from Seminary hill—a graceful compliment rendered by an old soldier, and appreciated by his comrades to whom it was paid.

Thanks are also returned to Col. J. H. Stewart for his very successful management as Chairman of the Finance and Transportation Committees; to the Pittsburgh & Connellsville Railroad; the Pittsburgh, Fort Wayne & Chicago Railroad, and the Allegheny Valley Railroad for courtesies extended, and to all others who in any way aided the Committee in arranging the ceremonies of May 20th.

By order of the Committee,
J. B. TIMMONY, Sec.

A Family Reunion.

MESSRS. EDITORS: I had the pleasure of spending a very interesting time on last Wednesday, May 31st, at the house of Mr. William McClusky, near New Bedford, Laurence county, Pennsylvania. Mr. McClusky and his wife are living on the old homestead of the McClusky family, and though the silvery locks, the large walking-cane and the spectacles indicate that old age is overtaking them, yet there is one thing that does not seem to grow old but remains fresh and green, and that is the love and respect they have for each other.

The occasion to which I refer was the family reunion on the sixty-third birthday of Mrs. McClusky. The children gathered home with the grandchildren, some other relatives were present, with a few friends. After the company had gathered the children, who had not forgotten the "birthday present," began to open little boxes and place upon the old lady's person little articles of dress, greatly to her surprise and much to the amusement of the company. Soon we were all seated around a table laden with the good things of life served up with the very best taste. After dinner Mrs. McClusky said: "Now it is my time to make a present," and brought out two beautiful morocco bound bibles and asked me to present them to her two daughters, Mrs. Rowland and Mrs. Schoef. I did so, exhorting them, as I had been directed, to take the precious word as "the man of their counsel," "a lamp unto their feet and a light unto their path." We then united our hearts in prayer and thanksgiving to the bountiful Giver of all things. Rarely have I seen a more pleasant meeting. Oh, that there were more of these happy reunions upon earth! T. B. A.

BREVITIES.

FIVE HUNDRED delegates in town yesterday.

COUNTRY DELEGATES patronized soda fountains regardless of expense yesterday.

CAPTAIN DALGLEISH, candidate for City Treasurer, considers his chances improving daily.

ALLEGHENIANS are feeling bad because they have no representative in the nominations of yesterday.

THE deaf mutes of the Pittsburgh school will give a very interesting exhibition in Library Hall on Thursday evening.

THE new City Hall is expected to be completed and the offices removed to that building, by the first of January next.

VEGETATION all around is suffering greatly for want of rain. We hear much complaint made by our friends in the country.

AT A meeting of the city property committee, yesterday, arrangements were effected to secure a suitable site for a new lock-up.

THE new coaches received on Monday, by the Connellsville R. R. Co., are very elegant. They are from the celebrated works of Jackson & Sharp, Wilmington Del., and are highly creditable to the manufacturers.

A HORSE driven by Dr. Roberts became frightened yesterday in South Pittsburgh and ran off, upsetting the buggy and injuring the Doctor slightly. The horse ran across the bridge, and was stopped in front of the Central Hotel.

ARCHIBALD PILLOW, late a County Commissioner, and a candidate yesterday for County Treasurer, is lying very ill with small pox, at his residence at Springdale, on the West Pennsylvania Railroad. It is reported that he will not recover. We sincerely regret to learn these sad tidings.

A. WHITLEY, brought an action before Alderman Strain yesterday, against H. C. Reamer, for assault and battery. It seems that the difficulty grew out of a dispute concerning the proper location of a fence, which wound up in a fight with picks, stones, &c., Reamer, "putting an ear" on Whitley.

THE prospect now is, that arrangements will be made by which open-air concerts shall be given every Wednesday and Saturday evening throughout the summer, at some place in the Allegheny parks. The location changes from one place to another. It is believed that the city will pay for it.

THE inquest on the body of George Montague, the deaf and dumb man who was killed on Monday evening at the metal yard, was concluded last evening at the office of Alderman Neubert, on Grant street, the jury finding that Montague came to his death by being accidently run over by cars of the Pennsylvania Railroad Company.

THE constable attached to the office of a certain Penn street Alderman was escorting an intoxicated femals jailward last evening, and it was the opinion of many who witnessed the scene that the officer contained more bad whisky than did his prisoner. Such things cannot be tolerated, and will be exposed upon another similar provocation.

THE funeral of Wentworth Wilson took place yesterday, and was attended by a large number of the friends of the deceased. The remains were first conveyed to St. Peter's Church, on Grant street, where appropriate services were held, after which the cortege proceeded to Allegheny Cemetery, and the body was there consigned to its last resting place.

OUR colored friends of the Grace Memorial Church are enjoying themselves at their fair and festival in City Hall, which began last Monday night. The attendance is good, the refreshments excellent and the various articles offered for sale neat and tasteful. The Washington Cornet Band is there and discourses fine music at intervals. The festival will be continued for some days.

THE new elegant Lutheran church on Stockton avenue is progressing rapidly, thanks to the liberal purse and watchful eye of Mr. Christian Yeager. The second story walls are almost ready to receive the roof, while the whole edifice promises to be very ornamental. A tall spire, one hundred feet high, is to adorn the front, and the time will now be very short before this one takes its place as one of the most prominent of Allegheny's almost innumerable houses of worship.

ALLEGHENY SCHOOL CONTROLLERS.

The Meeting Last Night—The Proposed High School—The Matter Left to the Voters of the City—Other Items of Business.

The regular monthly meeting of the Board of School Controllers for Allegheny City was held in the Allegheny Common Council room last evening, at 7½ o'clock.

The meeting was called to order by the President, Mr. King and an opening prayer offered by him.

The roll of members was then called, the absentees being quite numerous.

The Secretary then read the minutes of the preceding meeting, which were on motion approved.

REPORTS OF COMMITTEES.

The Visiting Committees for the different wards of the city then made their Reports. A new feature in the reports, namely, the number of cases of corporal punishment was noticed in a few cases but generally there was no report on this matter.

The Committee on Finance reported that $300 had been expended for the purchase of a safe and $9 00 for hauling of same. They also recommended the adoption of the following resolution:

Resolved, That the Secretary be instructed to draw warrants in favor of Fleming & Co., $300 for safe, and McMish & Butler, $9 00 for hauling.

The Committee on Teachers reported as follows. No of teachers in different wards:

1st ward	13	6th ward	18
2d ward	26	7th ward	9
3d ward	26	8th ward	4
4th ward	22	9th ward	—
5th ward	15	Colored Schools	3

The following resolution was appended to the report:

Resolved, That we recommend that the Seventh ward and also the Colored Schools be allowed the same number of teachers for the ensuing term as for the past term.

On motion report accepted and resolution adopted.

REPORT OF COMMITTEE ON HIGH SCHOOL.

Mr. Sloan, from the Committee on High School, made a report on the subject, which has already appeared in our columns. The report was accepted.

It was moved and carried that the first resolution be taken up for discussion.

Dr. Nesbitt thought the establishment of exclusive institutions for Allegheny city would operate against consolidation.

Mr. McCance was opposed to the resolution. He thought it not entirely necessary at present, not at least until the school debt of the city was decreased.

Mr. Eaton thought that Dr. Nesbitt did not understand the temper and spirit of the Allegheny people concerning consolidation. The rich could do without this High School, but it was for the children of the poor that it was a necessity. The opposition to the measure is small.

Mr. Pitcairn—It has been stated that the people ask for a High School. They do not. A few of the rich want it, but the people do not.

Mr. Sloan—It is thought that about one hundred persons would be prepared to enter the school next fall. We should not give up the High School for the sake of consolidation, however desirable that may be. Allegheny City is the only place of its size in the country that has not a High School. No scholar can obtain a sufficient education in the ward schools of this city for the higher avocations of life.

Mr. King was in favor of the High School. He could reap no advantage from it in any way, yet he was convinced from what he had seen of the matter that it would be of utility. The argument of consolidation avails nothing. If the cities are consolidated, why not the High Schools also? He thought it would be of benefit rather than detrimental to the interests of the poor.

Mr. White—Put it off for a year and let us get ready for it. We can't levy a tax until next year. Besides what is the benefit of it?

Mr. Johns was opposed to the measure. He thought that the spirit of the school law was not to fit the student for professional life—not to instruct him fully in the Arts and Sciences, but to give him a good knowledge of the commoner branches.

Mr. Dennison thought that if the matter was submitted to the people it would by carried by a large majority. Allegheny is progressing more rapidly than any other city in proportion to its size, probably double as fast as New York. We lack two things—a decent place for a man to stay all night in and a High School.

Mr. McCance made a motion that the matter be referred to the vote of the people at the next city election.

Mr. Dennison thought that there was no authority for such action. This was not a legislative body. He would amend by referring the matter to a committee to ascertain if there would be enough applicants to warrant the establishment of a High School.

A motion by Mr. McClinton to lay the whole matter on the table was lost. Yeas 10, nays 25.

The question recurring upon the motion of Mr. McCance, the Chair decided that the motion was out of order. Decision appealed from by Mr. Smith and seconded by Hobson. Appeal sustained. Mr. Smith called for the yeas and nays on the previous question. The motion was carried. Yeas 26, nays 9.

On motion of Dr. Nesbitt a committee consisting of one member from each School Board, to be appointed by the different Boards, be created, to prepare ballots for the election, containing the words "For High School" and "Against High School."

ITEMS OF BUSINESS.

On motion, next meeting of Board, falling regularly on July 4th, was postponed until July 11th.

Mr. Sprague introduced the following resolutions, which were adopted:

WHEREAS, There is now existing in the city of Allegheny a contagious disease, and there is danger of it becoming epidemic for the want of proper Sanitary regulations—therefore

Resolved, That a due regard for the health of the children in the schools under our control demands that all necessary arrangements should be provided at once for the preservation of their health.

Resolved, That we request the Councils to at once organize an efficient Board of Health.

Warrants were ordered to be drawn for a number of miscellaneous bills.

The Board then adjourned.

BIRMINGHAM COUNCIL.

The Council of Birmingham held a regular monthly meeting last evening in Burgess Salisbury's office.

Members present—Messrs. Atterbury, Zeifel, Doyle, Duncan, Kerr, Schneider, Schwarm, Conway and Burgess Salisbury in the chair.

The Clerk read the minutes of previous meetings, which were approved.

Mr. Atterbury, from the Finance Committee, presented the statement of the Borough Treasury, as shown by the books of the Treasurer, Mr. Beech. It showed a balance of $1,186.41. The Committee had also examined the reports of the borough officers, and found them correct.

The committee also reported in relation to the raising of the salary of the Burgess to $100, instead of $50, as heretofore, and also to allow the clerk $50 for extra services. The report was accepted and the recommendation in regard to the Salary of the Burgess and clerk was adopted.

Mr. Atterbury moved that the tax assessment for the coming year be 18 mills. Carried.

Mr. Duncan, of the street committee, reported that they were doing a great amount of work in paving, curbing, repairing and re-curbing of the streets. Report accepted and filed.

Mr. Schwarm moved that Ninth street be paved from Bingham to Carson streets.

Mr. Ziefel moved to amend, that Ninth street be paved up to William street.

Mr. Ziefel's motion was carried.

Mr. Schwarm moved to pave William street from Ninth to Tenth streets. Carried.

Mr. Ziefel moved to advertise for proposals for the grading and paving of the above streets. Carried.

In regard to the vacating of the stalls sold in the market house when the building is to be torn down, Mr. Atterbury moved that the Market Committee collect rent from the stalls until the 1st of July, and draw up an agreement and get it signed by the owners of the stalls, releasing the borough for the remainder of the year. Carried.

Mr. Atterbury moved that all sewer drops needed on Washington street be placed. Carried.

The Clerk read a report from the Borough regulators in relation to the grades of streets in the Borough. Received.

Mr. Atterbury read a communication from the regulators, recommending that the grades of the streets running down towards the river be so established as to allow all the water on the streets to run directly into the river. Received and filed.

Mr. Atterbury moved that a committee of three be appointed to draw up an ordinance fixing the grades of the streets and fixing the duties of the Regulator.

Messrs. Atterbury, Zeifel and Conway were appointed.

A petition was read for two gas lamps on Thirteenth streets between Washington and Breed streets. So ordered.

Mr. Schneider moved that a sanitary committee of citizens outside of the Council be appointed during the present warm season, the committee to consist of three from each precinct, and to report their actions to the Council.

Dr. J. W. Riggs, Charles Evans, Bernard Welker, Patterson, Pearson, Michael Knowles and Dr. J. D. Thomas were then appointed on the Sanitary Committee. The said committee shall have power to abate nuisances and change water courses if found necessary.

The reports of the borough officers were read and received.

Mr. Atterbury moved that the sewer be continued from Chestnut alley to the river, as the stench now collecting there is unbearable. Carried.

Several bills were read and ordered to be paid, as also were the officers' salaries.

On motion $350 was ordered for the use of the Street Commissioner for the coming month.

On motion adjourned.

THE A. P. A. CONVENTION.

Tuesday's Proceedings.

Pursuant to adjournment, the Worthy Grand Lodge of A. P. A., met at nine o'clock yesterday morning, and opened in the usual form.

At roll call forty-three representatives answered to their names.

The minutes of Monday afternoon's session were read and approved.

A motion was made to dispense with the business pending at adjournment, for the purpose of installing the officers elect.

The yeas and nays were called, and resulted in the affirmation,—as follows:

Yeas—Nos. 3, 9, 12, 13, 14, 15, (2 votes) 20, (2 votes) 24, 26, (3 votes) 30, 31, 33, 37, 38, 39, 42, 44, 45, 47, 48, 51, 66, (2 votes) 67, 68, 80, 82, 83, 87, 88, 89—36 yeas. *Nays*—Nos. 4, 11, 16, (3 votes) 18, 23, 28, 34, 63, 72, 74, 78, (2 votes each) 79, 90—17 noes.

The W. G. Master, James Alcorn, then stated that, as the W. G. Lodge by its action yesterday deprived three of the Lodges, who were legally entitled to participation in the election of officers, and as he considered the election unconstitutional and illegal he would not officiate as the installing officer. On motion, P. M. Jacob Shaffer was requested to install the officers elect, which was carried, and Mr. Shaffer took the chair.

No rituals containing the ceremonies of installation being present, a motion was made to take a recess for thirty minutes in order to procure the necessary documents.

The yeas and nays were called for, but the Chair decided to take the vote in the usual way, and the motion was carried.

The recess having expired, the lodge was brought to order. The required papers not being present, a few of the members, having the proceedings of the day before their eyes, indulged in some wholesome remarks and christian admonitions to the members.

The officers elected on Monday were installed, and the Grand Lodge adjourned until Wednesday morning, to allow the members, who wished, the privilege of attending the pic nic to be held by Lincoln Lodge.

EARTHQUAKE IN CHINA.

Terrible Destruction of Life and Property.

Our Minister in China, Governor Lowe, has forwarded to the Secretary of State the following translations of a report made by the Chinese Governor-General of the province in which it occurred, of the earthquake at Bathang, in Sechuen:

I have ascertained that Bathang, lying on a very elevated spot beyond the borders of the province, about 260 miles west from Li-tang, and more than thirty post-stations from the district town of Ta-tsien, on the high road to Thibet, has suffered severely by an earthquake. About 11 o'clock A. M., on the 4th of April, 1870, the earth trembled so violently that the government offices, temples, granaries, stone and storehouses and fortifications, with all the common dwellings and the temple of Ting-lin, were at once over thrown and ruined. The only exception was the hall in the temple grounds, called Ta-chao, which stood unharmed in its isolation. A few of the troops and people escaped, but most of the inmates were crushed and killed under the falling timber and stone. Flames also burst out in four places, which strong winds drove about until the heavens were darkened with smoke, and their roaring was mingled with the lamentations of the distressed people. On the 16th the flames were beaten down, but the rumbling noises were still heard under the ground like distant thunder, and the earth rocked and rolled like a ship in a storm at the mercy of the waves. The multiplied miseries of the afflicted inhabitants were increased by a thousand fears; but in about ten days matters began to grow quiet and the motion to cease. The grain tax collector at Bathang says that for several days before the earthquake the water had overflowed the dyke, but after it the earth cracked in many places, and black, fetid water spurted out in a furious manner. If one poked it the spurting instantly followed, just as is the case with salt and fire wells in the eastern parts of the province, and this explains how it happened that fire followed the earthquake in Bathang. As nearly as is ascertained there were destroyed two large temples, the offices of the collector of grain tax, the local magistrate, and the colonel, the Tinglin temple, and nearly seven hundred fathoms of wall around it, and 351 rooms in all inside; six smaller temples numbering 221 rooms, besides 1,849 rooms and houses of the common people. The number of people, soldiers, and lamas killed by the crash was 2,298, among whom were the local magistrate and his second in office. The earthquake extended from Bathang eastward to Pang-Chahe-mup, westward to Nan-tun, on the south to Lin-tsah-shin, and on the north to the salt wells of A-tuntsz, a circuit of over 400 miles. It occurred simultaneously over the whole of this region. In some places steep hills split and sunk into deep pits; in others hills on level spots became precipitous cliffs, and the roads and highways were rendered impassable by obstructions. The people were scattered and beggared like autumn leaves, and this calamity to the people of Bathang and vicinity was really one of the most distressing and destructive that has happened. The Governor-General twice memorialized the Emperor respecting it, who granted aid to relieve the misery, reopen the roads between the post-houses, and rebuild or repair the offices and dwellings as they were needed. Many are now resuming their occupations and the roads are everywhere passable.

Model Report.

This is the way the Boston *Post* tells the story of the dinner plate homicide:

"The late Mr. Devine, of New York, has been in the habit of beating his wife regularly. Indeed her eyes were in perpetual mourning, for his blows were indiscriminate, and her labors at the washing tub or soap and sand failed to restore her mind to that equanimity which renders a household congenial. But Mr. Devine struck her 'just once' too often. She revenged his brutality in one blow with a conscientiously manufactured dinner plate of harder temper than her husband's skull, and he died with as little delay as possible, testifying his love for her to the last by a prodigious kick in the stomach, which only a powerful constitution will enable her to survive. Perhaps, however, we err in relating with such minuteness of detail what was purely a family matter."

Political.

The New York *Post*, commenting upon the platform made by the Ohio Democrats at Columbia, says: The only question is, whether the voters of Ohio can be fooled by so transparent a piece of deception—such a marvel of hypocrisy and falsehood. On this subject there can be no difference of opinion. The people who scotched the snake of treason will pull the fangs out of this new creation as soon as they get an opportunity to vote. They will never permit such an incubation to survive beyond its allotted period.

New Orleans.

NEW ORLEANS, June 6.—Flour depressed; super $5.87½@6; double extra $6.50; treble extra $6.75@6.87½. Bran $1.20@1.35. Bacon dull; shoulders 7¼c; clear rib sides 9c; clear sides 9⅝c. Sugar cured hams 13½@14½c. Lard dull; tierce 10⅜c; keg 12½c. Other articles unchanged.

GENERALITIES.

IN Cincinnati, theatres "over the Rhine" are run full blast on Sunday evenings.

THE Brooklyn small pox hospital contains one hundred patients and is about to be enlarged.

MRS. FAIR says she will lecture if she gets out. The Governor of California says then he will not let her out.

A MAN in Missouri was successfully operated upon for cancer in the jaw. The cancer and head were both disposed of.

A BALTIMORE workman lighted a match to discover the leak in a gas meter. He discovered it, but will never communicate the intelligence.

MRS. LIVERMOORE is astonished at herself that she does not hiss like a goose. It is astonishing, but then none of the other suffragists don't either.

THE New York *Sun* has at length determined that "Grant as a civilian, is a calamitous failnre," which means that he would not deign a gift of office to Dana.

CALEB CUSHING has been engaged by the New York Central Railroad to assist its other counsel in the tax case now pending. At least it is so announced by an officer of the road.

THE Boston *Post* says: "There's never a place too mean to be a happy creature's palace," murmured Mr. Watts, of Seealia, Mo., as the doctor took a wasp out of his ear which had been there nine years.

THE first case in Nashville, under the provisions of the Ku-Klux bill came up last Friday, but was continued until Wednesday. H. H. Hicks is accused of being one of a party of men who entered the house of a citizen and beat him unmercifully.

THE Marquette *Mining Journal* says: "Gentlemen who have recently visited Silver Island corroborate to the fullest extent, the reported richness of the deposits. The company claim to have already shipped away $400,000 worth of ore, and have more on hand. Great excitement prevails, and hundreds of people are flocking in from all quarters, and leaving for the woods, each one determined to find a silver mine of his own.

FOR a long time antiquarians and mythologists have been of the opinion that after all no sword was suspended over Damocles' head. He was probably suffering at the time from an attack of too much "benzine," for he had renounced the use of Pier, Dannals & Co.'s cream ale.

LOUISVILLE
CEMENT.
The Best--The Cheapest.
The Cement has acquired the reputation as the first in the country in hydraulic strength and uniform reliability.
It is now in general use from the lakes to the Gulf, most of the public works in the West and South being constructed with it.
The mills at Louisville having been enlarged and improved, can supply any demand, and though the Cement has always, for 30 years brought higher prices than competing brands, it is from this time the determination of the manufacturers, in order to largely increase the sale and extend the use of their Cement, to furnish it in the principal markets at prices which make it the most available and economical for all classes of work.
The large capacity of this Cement for taking sand renders it much the cheapest that can be used for buildings of any kind.
At the reduced prices in Pittsburgh its cost is not much above common lime, which makes it unquestionably to the interest of owners and builders that the foundation of every good house should be laid in this Cement.
A large stock of fresh Cement has just been received by barges from Louisville, and is offered at greatly reduced prices by the following dealers:

THE
New Orleans,
Mobile and Texas
RAILROAD CO.
Are building a Trunk Line, connecting New Orleans with Mobile on the east, and giving the
Only Railroad Connection
between the former city and the great and most productive State of Texas on the west, the total distance from Mobile to Houston being 475 miles.
The Company is composed of strong Northern capitalists, who have already expended nearly TEN MILLION DOLLARS of their own funds in the construction of the line. They have built about 225 miles from Mobile westward, and secured by purchase of securities and made provision for the thorough repair and equipment of the 108 miles constituting the Texas division leaving but 140 miles to be built
To Complete the Entire Road.
It is believed that no other railroad corporation in the country has ever made so large an expenditure from its own means before offering any of its securities to the public.
The Company now offer for sale the
Eight per Cent. Mortgage Bonds
upon the Louisiana division of 226⅝ miles from New Orleans to the Sabine River. This will probably be the most valuable portion of the whole line, as it will be the only rail communication by which the enormous productions of Texas can reach the Southern metropolis.
So important is this road considered to Louisiana that the State has made very liberal grants in aid of the enterprise, by direct donations, by endorsement of its bonds, and, by subscriptions to the Stock of the Company, amounting in all to over eight million dollars.
The Bonds now offered are of two classes:
First Mortgage Bonds,
to the amount of $12 500 per mile, and
Second Mortgage Bonds,
to an equal amount, both principal and interest guaranteed by the State of Louisiana. The price of the two classes is the same, and subscriber can take their choice.
The Bonds are only in the denomination of $1,000, or £200 each, interest payable January and July, at the rate of eight per cent. currency in New York, or seven per cent. gold in London, at the option of the holder, at the time each coupon is due. Bonds can be registered, if desired.
NO BETTER SECURITY
Has Been Offered
to investors. The Bonds are largely profitable, as well as entirely safe. One thousand dollars invested in these eight per cent. bonds will give the purchaser
More than 77 Per Cent.
greater annual interest than the same amount invested in the new Government Five Per Cents.
At the same price, an 8 per cent. currency long bond is far cheaper than a 7 per cent. gold one. Calculating a return to specie payment in three years, and taking the time that the bonds of the New Orleans, Mobile and Texas Railroad have to run—45 years—we find that by compounding the interest of each, every six months, at 7 per cent. an 8 per cent. currency bond at 90 will give a return of $2614 18 more than a 7 per cent. gold bond, at the same price, or nearly three times the amount of the original investment.
The bonds are dated May 1, 1871. The first coupon will, therefore, be a fractional one, running from May 1 to July 1. The price is 90, and accrued interest at 8 per cent. currency from May 1 to date of remittance.
Subscriptions will be received in Pittsburgh by
Messrs. S. McClean & Co.,
BANKERS.
Information concerning the Company and the Road, and pamphlets containing map and full details of the enterprise, can be obtained of the undersigned or any of the Company's advertised agents.

7-30 GOLD LOAN
OF THE
Northern Pacific Railroad.
RAPID PROGRESS OF THE WORK.
The building of the Northern Pacific Railroad, (begun July last,) is being pushed forward with great energy from both extremities of the line. Several thousand men are employed in Minnesota and on the Pacific coast. The grade is nearly completed 266 miles westward from Lake Superior; trains are running over 130 miles of finished road, and track-laying is rapidly progressing toward the eastern border of Dakota. Including its purchase of the St. Paul & Pacific Road, the Northern Pacific Company now has 413 miles of completed road, and by September next this will be increased to at least 560.
A GOOD INVESTMENT.—Jay Cooke & Co. are now selling, and unhesitatingly recommend as a profitable and perfectly safe investment, the First Mortgage Land Grant Gold Bonds of the Northern Pacific Railroad Company. They have 30 years to run, bear Seven and Three-Tenths per cent. gold interest, (more than 8 per cent. currency) and are secured by first and only mortgage on the ENTIRE ROAD AND ITS EQUIPMENTS, and also, as fast as the road is completed, on 23,000 ACRES OF LAND to every mile of track, or 500 acres for each $1,000 bond. They are exempt from U. S. Tax; principal and interest are payable in gold; Denominations: Coupons, $100 to $1,000; Registered, $100 to $10,000.
LANDS FOR BONDS.—Northern Pacific 7-30's are at all times receivable at TEN PER CENT. ABOVE PAR, in exchange for the Company's lands, at their lowest cash price. This renders them practically INTEREST BEARING LAND WARRANTS.
SINKING FUND.—The proceeds of all sales of Lands are required to be devoted to the re-purchase and cancellation of the First Mortgage Bonds of the Company. The land grant of the Road exceeds Fifty Million Acres. This immense Sinking Fund will undoubtedly cancel the principal of the Company's bonded debt before it falls due. With their ample security and high rate of interest, there is no investment accessible to the people which is more PROFITABLE OR SAFE.
EXCHANGING U. S. FIVE-TWENTIES.—The success of the New Government 5 per cent. Loan will compel the early surrender of United States 6 per cent. Many holders of Five-Twenties are now exchanging them for Northern Pacific Seven-Thirties, thus realizing a handsome profit, and greatly increasing their yearly income.
OTHER SECURITIES.—All marketable Stocks and Bonds will be received at their highest current prices in exchange for Northern Pacific Seven-Thirties. EXPRESS CHARGES on Money or Bonds received, and on Seven-Thirties sent in return, will be paid by the Financial Agents. Full information, maps, pamphlets, etc. can be obtained on application at any agency, or from the undersigned. For sale by

BONDS at Frankfort, 96½.

GOLD closed in New York yesterday at 112¼@112⅜.

MR. GEORGE W. CHILDS, Proprietor of the Philadelphia *Public Ledger*, sails to day in the Scotia, from New York for Europe. He may be said to be the factor of his own ample fortune. He is a man of fine impulses, noble heart and liberal hand.

HARK! A voice from the Tombs. Robert speaks his mind on the new departure, and says:

When you can tear the live thunder from its home in the burning ether, and bind it a captive at the footstool of tyranny, then, and not till then, will I accept the situation.

IT APPEARS that President Grant did not appoint Brigham Young's son, as a Cadet to West Point. He had nothing to do with the appointment. We hope this will be entirely satisfactory to the Democratic journals, which, as usual, have been soundly berating the President for a matter for which he is not responsible.

ALLEGHENY CITY failed to obtain a place on the Assembly ticket. This was owing wholly to the fact that too many names were presented from that city, and of course their strength being thus divided they all failed to secure the nomination. They are undoubtedly entitled to one assemblyman, if not two, and it is to be regretted that they failed to obtain any.

IF THE editor of the *Post* will examine our paper of May 26th, he will find the resolution he wishes us to publish in our editorial columns. We had supposed that his Argus eye would not have overlooked such an important matter. Will he now tell us whether he intends to join with his party in their future enterprise, under the leadership of Jefferson Davis, of declaring the thirteenth, fourteenth and fifteenth amendments unconstitutionally adopted?

TODAY Pittsburgh is to be honored with the presence of some one hundred of the leading journalists of the country, members of the Western Associated Press. These gentlemen in the aggregate represent millions of readers, and as manufacturers of public opinion are the most powerful body in the land. We hope their stay among us may be pleasant and agreeable, and that they may become better acquainted with our people, their interests and peculiarities. We are sure we but reflect the sentiment of the entire community in bidding them hearty and sincere welcome.

WHAT is to become of the white man's government? Last year the Democrats declared that they would never submit to any thing but a white man's rule. Now they pretend to be in favor of negro suffrage, and contend for the equal rights of all men whatever may be their race, color or condition. Surely they cannot and will not denounce Republicans who have given them the only political platform upon which they can stand with safety. But should they fail to carry their ticket next fall, they may adopt a new platform. The Democracy are becoming very fickle and elastic. They will swallow any thing that will secure political power. Principles they have not. The virtue of sincerity would be a new companion to them.

DURING the past year, the Presbyterians of this city established a Seminary for the instruction of young ladies, known as the "Presbyterian Female College." The buildings are located on one of the most beautiful and commanding sites in the neighborhood of East Liberty, but within the city limits. The success of the Institution is almost without a parallel. It has been crowded ever since it was first opened, and so numerous are the applications for admission, that the trustees have been constrained to erect additional buildings. The corner stone of the "New Extension" will be laid with appropriate ceremonies next Thursday afternoon. We acknowledge the receipt of an invitation, through the excellent Secretary of the Board of Trustees, to be present on the occasion.

OUR Ohio exchanges bring us the not unexpected intelligence that the Democratic party in that State were never in a more forlorn or despairing condition than at present. They are divided into many and diverse factions, each one of which thinks it has been basely sold and betrayed. Those of the old line complain that that they are called upon by the Montgomery county and Columbus platforms to endorse the doctrine of negro equality, and that their glorious traditions are dishonored and disgraced. The young bloods feel that they have been sold by the variations in the State platform, and the refusal of McCook to endorse it. Vallandigham seems to be the only man that is hopeful. But although he has accepted, he has not realized the "situation." The few Republicans, too, who were cajoled into a support of the Democracy on the negro question, feel that they have been badly sold, and are retracing their steps toward their "first love," being persuaded by the events of the past few weeks that it was better for them when held in her embrace than it is now. Republicans, do not rest on your oars; you have a golden opportunity to augment your already invincible strength.

OUR COUNTY CONVENTIONS.

This morning we place at the head of our editorial columns the ticket put forward for the support of the people by the several Republican Conventions of yesterday. It has rarely been the good fortune of the party to have such unexceptionable and strong candidates as those found in the list, and we can see no good reason why they should not one and all be elected by an old fashioned majority that will in figures leave ten thousand in the shade. The Republican party of Allegheny was never more thoroughly united than at the present time. Nothing whatever exists to mar its harmony. The conduct of public affairs during the past year under Republican rule has been very creditable, and has afforded the largest measure of satisfaction to all citizens and taxpayers. The pledges for needed reforms given the people last fall have all been faithfully, honestly and honorably kept, and, while at the outset, many were disposed to view as idle and time-serving the promises made that *inside* the party would reformation be effected, there can now hardly be found one intelligent citizen of either party who will not assert that our great Republican organization of Allegheny dared to do all that was right, conscientious and honorable towards the people. We are expected to do much in the campaign just entered. The whole State depends on our work, on our majority, for the victory that will have its weight in determining in what way will be terminated the Presidential struggle of next year. We hazard nothing in promising to roll up such a majority in this section next October as will save the State to Republicanism, no matter what other localities may do. But we must not be idle. We must work. We have every incentive for spirited action. We have full knowledge of the importance of the campaign, and may truthfully hold that our county has the verdict to render in the coming election, whether or no a Republican administration shall be kept in power, and the nation preserved in peace and prosperity. We have a good and strong State ticket. Not a word can be uttered against either of the gentlemen who have place upon it. They are worthy the support of all honest citizens. The county ticket is equally good, and under such banners we cannot fail to secure a glorious victory and such as will fill the loyal people of the entire nation with joy and gratitude.

THE TICKET.

The Republican Conventions yesterday were very orderly and harmonious. The people were particularly fortunate in their selections of delegates. Rarely have better men found seats in political bodies, and each and every one seemed fully impressed with the importance of his vote and act. A good and fair ticket was nominated. No Republican can with reason refuse it his conscientious and hearty support. The candidates are all so well known to our people as representative citizens that we feel it is entirely unnecessary to enter this morning into an elaborate biography of them.

For State Senator from Allegheny side, Hon. James L. Graham was nominated, receiving one hundred and ten votes out of one hundred and eleven cast. A more fitting compliment to a more sterling citizen could not have been paid. Mr. Graham has for several terms ably and faithfully represented Allegheny county in the Senate and has ever maintained an unimpeachable reputation. His record at Harrisburg is without a single blemish or stain, and his ability as a leader has never been questioned.

Hon. Miles S. Humphreys, has also been nominated for Senator. He is the true type of the Republican statesman. A laborer at the puddling furnace, as well as a finished orator and ripe scholar, he preeminently fills the idea of the true American sovereign. He has for several terms represented the people in the lower branch of the State Legislature, and has made an enviable reputation all through the commonwealth.

For Assembly Messrs. John Gilfillan, D. N. White, Alex. Millar, H. K. Sample, James W. Ballantine, M. Edwards and James Taylor were nominated. A better selection could not have been made. The ticket combines genuine strength and solidity. Messrs White, Millar and Taylor have each been sent several times to the Assembly and have all made good records. Mr. Sample has served in the Legislature as Sergeant-at-arms and is widely known and respected, standing very high in the estimation of this community. Mr. Ballantine comes of good Republican stock. He was a brave soldier during the war, and since his return has done good service for the party. Mr. Gilfillan is a representative of our agricultural interests. He is prehaps as well known as any other enterprising and progressive farmer in the State. Active, shrewd and go-a-headative, he is the very man to become a leader in Harrisburg. His services to the party have been very valuable, and we think that no other selection could have afforded more universal satisfaction. Mr. M. Edwards is a self made man. He commenced life as an apprentice in a glass factory, and through skill, industry and application has risen to affluence. He is largely interested in the manufactories of our city, and closely identified with all that pertains to Pittsburgh. He has served as a member of our City Councils for several successive terms, always commanding the respect of his colleagues and the confidence of his constituents.

For County Commissioner, Joseph Dilworth, Esq., was nominated. Few of our citizens are better known. He has of late figured in the Court House in a conspicuous manner, having with several other prominent gentlemen resolved on a fair construction and administration of the license law. Without being oppressive, and not fearing to do right by all men, Mr. Dilworth has made both friends and enemies by his course, but the right-minded and God-fearing members of all parties cannot but admire his moral courage and determination. He is one of the strongest men on the ticket and will receive the hearty and solid support of not only the temperance element of society but also of all liquor venders who believe in living up to the letter and spirit of the laws.

Col. T. M. Bayne was nominated for District Attorney. He was a brave, good soldier during the war, making for himself an enviable record. Accomplished and agreeable, with an iron will and determination that may be fought, but not broken, he is just the man for the important position to which nominated.

J. B. Flack, Esq., the present very efficient Assistant District Attorney, was renominated, the Convention thus worthily honoring a pains-taking and faithful officer.

For Surveyor, Mr. Robert Clugston, a practical civil engineer, a clever gentleman, and an out-and-out Republican, was nominated. He is a good card for the party, and will lend much strength to the general ticket.

Mr. Henry Warner, one of Allegheny's most popular and best esteemed citizens, was nominated for Controller. He is a gentleman of large ability and education, and has served the people both in City Councils and the Legislature. Under his management the affairs of the county will be well conducted.

Capt. Samuel Kilgore, present superintendant of the Markets, was nominated for County Treasurer. He is very generally known and wherever known highly respected and esteemed.

The compliment of re-nomination to the office of Poor Director was paid Mr. James G. Murray, who has well and faithfully discharged the duties pretaining to that responsible office in the past.

Altogether, our ticket is a good one, and now it behooves all true Republicans to go to work for the candidates with such a will and determination as will secure their election by a good, old-fashioned majority, that will assure the country that Allegheny county yet stands faithful and true to the principles of the Republican party and the nation.

SUMMERFIELD'S SECRET.

"A Million of Dollars or I'll Set the Pacific Ocean in Flames"—Fate of a Man Who Burnt Up a Mountain Lake in Fifteen Minutes—A Remarkable Story.

In the Sacramento *Daily Union* of a recent date appears the extraordinary statement of one Leonidas Parker, written before his death, and giving what purports to be a true account of his connection with the murder of Gregory Summerfield. The latter individual has been known for many years as "The Man with the Secret," and he met with a horrible death at the age of seventy years, by being pushed from the platform of a train upon the Union Pacific railroad, near the north fork of the American river, at a place called Cape Horn. The unfortunate wretch was hurled downward a distance of over one thousand feet upon the bristling rocks at the foot of the declivity. Parker, who was upon the platform at the time of the catastrophe, was twice arrested and tried for the alleged murder, but was on each occasion mysteriously acquitted, once by a justice and the second time by a grand jury.

Parker was himself a distinguished lawyer of Sacramento, and was widely respected. He always remained silent concerning the circumstances of the imputed crime, but shortly before his death he placed in the hands of a friend a document, the gist of which we give below, the entire story taking up nearly a page of the Union.

Referring to George Summerfield, the murdered man, Mr. Parker speaks of him as having been one of the deepest chemical students of the age, a natural mathematician, a profound astronomer, and a man of excellent general literary attainments. Parker had known Summerfield for over twenty years, their acquaintance having been formed in Texas during the days of the republic. Continuing his account Parker says:

One day toward the close of last September an old man rapped at my office door, and on invitation came in, and advancing called me by name. Perceiving that I at first did not recognize him, he introduced himself as George Summerfield. After inviting him to a seat I scrutinized his features more closely and quickly identified him as the same person whom I had met twenty-two years before. He was greatly altered in appearance, but there was the old charm of intellectual superiority in conversation, and I welcomed him to California as an important addition to her mental worth.

"It was not many minutes before he requested a private interview. He followed me into my back office, carefully closed the door after him and locked it. We had scarcely seated ourselves before he inquired of me 'if I had noticed any recent articles in the newspapers respecting the discovery of the art of decomposing water so as to fit it for use as a fuel for ordinary purposes?'

"I replied that I had observed nothing new upon the subject since the experiments of Agassiz and Prof. Henry, and added that, in my opinion, the expensive mode of reduction would always prevent its use."

"In a few words he then informed me that he had made the discovery that the art was extremely simple, and the expense attending the decomposition so slight as to be insignificant.

"Presuming that the object of his visit to me was to procure the necessary forms to get out a patent for the right, I congratulated him upon his good fortune and was about to branch forth with a description of some of the great benefits that must ensue to the community, when he suddenly and somewhat uncivilly requested me to 'be silent,' and listen to what he had to say.

"He began with some general remarks about the inequality of fortune amongst mankind, and instanced himself as a striking example of the fate of those men who, according to all the rules of right, ought to be near the top, instead of at the foot of the ladder of fortune. 'But,' said he, springing to his feet with impulsive energy; 'I have now the means at my command of rising superior to fate, or of inflicting incalculable ills upon the whole human race.'

"Looking at him more closely, I thought I could detect in his eye the gleam of madness; but I remained silent and awaited further developments. But my scrutiny, stolen as it was, had been detected, and he replied at once to the expression of my face: 'No, sir, I am neither drunk nor a maniac; I am in deep earnest in all that I say; and I am fully prepared, by actual experiment, to demonstrate beyond all doubt the truth of all I claim.'

"For the first time I noticed that he carried a small portmanteau in his hand; this he placed upon the table, unlocked it, and took out two or three small volumes, a pamphlet or two, and a small, square, wide-mouthed phial, hermetically sealed.

"I watched him with profound curiosity, and took note of his slightest movements. Having arranged his books to suit him, and placed the phial in a conspicuous position, he drew up his chair closely to my own, and uttered, in a half hissing tone:

"'I demand one million dollars for the contents of that bottle, and you must raise it for me in the city of San Francisco within one month, or scenes too terrible even for the imagination to conceive, will surely be witnessed by every living human being on the face of the globe.'

"The tone, the manner, and the absurd extravagance of the demand, excited a faint smile upon my lips, which he observed, but disdained to notice.

"My mind was fully made up that I had a maniac to deal with, and I prepared to act accordingly. But I ascertained at once that my inmost thoughts were read by the remarkable man before me, and seemed to be anticipated by him in advance of their expression.

"'Perhaps,' said I, 'Mr. Summerfield, you would oblige me by informing me fully of the grounds of your claim, and the nature of your discovery.'

"'That is the object of my visit,' he replied. 'I claim to have discovered the key which unlocks the constituent gases of water, and frees each from the embrace of the other, at a single touch.'

"'You mean to assert,' I rejoined, 'that you can make water burn itself up.'

"'Nothing more nor less,' he responded, 'except this—to insist upon the consequences of the secret, if my demand be not at once complied with.'

"'Now, suppose I fling the contents of this small phial into the Pacific Ocean, what would be the result? Dare you contemplate it for an instant? I do not assert that the entire surface of the sea would instantaneously bubble up into insufferable flames; no, but from the nucleus of a circle, of which this phial would be the centre, lurid radii of flames would gradually shoot outward, until the blazing circumference would roll in vast billows of fire upon the uttermost shores. Not all the dropping clouds of the deluge could extinguish it; not all the tears of saints and angels could for an instant check its progress. Onward and onward it would sweep, with the steady gait of destiny, until the constituents would melt with fervent heat, the atmosphere glare with the ominous conflagration, and all living creatures—in land, and sea, and air—perish in one universal catastrophe.'

"Then suddenly starting to his feet, he drew himself to his full hights, and murmered solemnly, 'I feel like a God! and recognize my fellow-men as pigmies that I spurn beneath My feet.'

At this Parker states that he attempted to reason with Summerfield on the absurdity of believing that he held in his hands power so mighty, at which the latter retorted with quotations from the scriptures, Humboldt's Cosmos, and the works of famous astronomical writers, proving that it was not only possible for entire planets to be destroyed by fire, but that such terrible events had actually occurred. This answer concluded, he handed Parker a small phial' requesting him to open it and smell of its contents, the result being that a strong odor of potassium was observed. At this Summerfield continued, "Of course," said he "you are familiar with the chief characteristic of that substance. It ignites instantantly when brought into contact with water. Within that litttle globule of potassium I have imbedded a pill of my own composition and discovery. The moment it is liberated from the potassium it commences the work of decomposing the fluid on which it floats. The potassium at once ignites the liberated oxygen, and the conflagration of this mighty globe is begun."

"'Yes,' said I, 'begun, if you please, but your little pill soon evaporates or sinks, or melts in the surrounding seas, and your conflagration ends just where it began.'

"'But,' sneered he, 'the elementery substances in that small phial recreate themselves; they are self-generating, and when once fairly under way, must necessarily sweep onward, until the waters in all the seas are exhausted.'

"Rising from my seat, I went to the wash stand in the corner of the apartment, and, drawing a bowl-full of Spring Valley water, I turned to Summerfield and remarked, 'Words are empty, theories are idle—but facts are things.'"

"I take you at your word." So saying he approached the bowl, emptied it of nine-tenths of its contents, and silently dropped the potassium coated pill into the liquid. The potassium danced around the edges of the vessel, fuming, hissing and blazing, as it always does, and seemed on the point of expiring, when to my astonishment and alarm a sharp explosion took place, and in a second of time the water was blazing in a red, lurid column half way to the ceiling.

"For God's sake," I cried, "extinguish the flames or we shall set the building on fire!"

"Had I dropped the potassium into the bowl as you prepared it," he quietly remarked, "the building woule indeed have been consumed." Lower and lower fell the flickering flames, paler and paler grew the blaze, until finally the fire went out, and I rushed up to see the effect of the combustion.

"Not a drop of water remained in the vessel! Astonished beyond measure at what I had witnessed, and terrified almost to the verge of insanity, I approached Summerfield and tremblingly inquired, 'To whom, sir, is this tremendous secret known?' 'To myself alone,' he responded; 'and now answer me a question, is it worth the money?'

"It is entirely unnecessary to relate in detail the subsequent events connected with the transaction. I will only add a general statement, showing the results of my negotiation. Having fully satisfied myself that Summerfield actually held in his hands the fate of the whold world, with its millicns of human beings, and by experiment having tested the combustion of sea water, with equal facility as fresh, I next deemed it my duty to call the attention of a few of the principal men in San Francisco to the extreme importance of Summerfield's discovery.

"A leading banker, a bishop, a chemist, two State University professors, a physician, a judge and two Protestant divines were selected by me to witness the experiment on a large scale. This was done at a small sandhill lake, near the sea shore, but separated from it by a ridge of lofty mountains, distant not more than ten miles from San Francisco. Every single drop of water in the pool was burnt up in less than fifteen minutes. We next did all we could to pacify Summerfield, and endeavored to induce him to lower his price and bring it within the bounds of a reasonable possibility. But without avail. He began to grow urgent in his demands. The sub-committee soon commenced work amongst the wealthiest citizens of San Francisco, and by appealing to the terrors of a few and the sympathies of all, succeeded in raising one-half the amount within the prescribed period. I shall never forget the woe-begone faces of California street during the month of October. The outside world and the newspapers spoke most learnedly of a money panic—a pressure in business, and the disturbances in the New York gold room. But to the initiated there was an easier solution of the enigma. The pale specter of death looked down upon them, and pointed with his bony finger to the fiery tomb of the whole race, already looming up in the distance before them. Day after day I could see the dreadful ravages of this secret horror; doubly terrible, since they dared not divulge it. Still, do all that we could, the money could not be obtained. The day preceding the last one given, Summerfield was summoned before the committee, and full information given him of the state of affairs. Obdurate, hard and cruel, he still continued. Finally, a proposition was started that an attempt should be made to raise the other half of the money in the city of New York. To this proposition Summerfield ultimately yielded, but with extreme reluctance. It was agreed in committee that I should accompany him thither, and take with me, in my own possession, evidences of the sums subscribed here; that a proper appeal should be made to the leading capitalists, scholars and clergymen of the metropolis; and that when the whole amount was raised, it should be paid over to Summerfield, and a bond taken from him never to divulge his awful secret to any human being.

"With this he seemed to be satisfied and left us to prepare for his going the next morning.

"As soon as he had left the apartment the bishop rose, and 'deprecated the action that had been taken, and characterized it as childish and absurd.' He declared that no man was safe one moment whilst that 'diabolical wretch' still lived; that the only security for us all was in his immediate extirpation from the face of the earth and that no amount of money could seal his lips or close his hands. It would be no crime, he said, to deprive him of the means of assassinating the whole human family, and that, as for himself, he was for dooming him to immediate death.

"With an unaminity that was extraordinary the entire committee coincided.

"A great many plans were proposed, discussed and rejected, having in view the extermination of Summerfield. In them all there was the want of that proper caution which would lull the apprehension of an enemy; for should he for an instant suspect treachery we knew his nature well enough to be satisfied the he would waive all ceremonies and carry his threats into immediate execution.

"It was finally resolved that the trip to New York should not be abandoned, apparently. But that we were to start out in accordance with the original programme; that, during the journey, some proper means should be resorted to by me to carry out the final intentions of the committee, and that whatever I did would be sanctioned by them all, and full protection, both in law and conscience, afforded me in any stage of the proceedings.

"Nothing was wanting but my own consent. I asked the privilege of meditation for one hour, at the hands of the committee, before I would render a decision either way. During that recess the above argumentation occupied my thoughts. The time expired, and I again presented myself before them. I did not deem it requisite to state the grounds of my decision; I briefly signified my assent, and made instant preparations to carry the plan into execution.

"Having passed on the line of the Pacific railway more than once, I was perfectly familiar with all of its windings, gorges and precipices.

"I selected Cape Horn as the best adapted to the purpose, and * * * the public knows the rest.

"Having been fully committed by two tribunals of the law, I make this final appeal to my fellow men throughout the State, and ask them confidently not to reverse the judgment already pronounced."

Nassal Catarrh.

The Cincinnati *Gazette* contains the following valuable communication:

RUTLAND, MEIGS CO., O., May, 1871.—A lady reader asks some one to tell her how to cure nasal catarrh. I reply as briefly as possible, yet a word or two in explanation will be necessary, for if she is like most ladies, she will require a "reason for the hope that is within her" before she will attempt to realize it.

Nasal catarrh originates within one or both of two irregular cavities called the frontal sinuses. These are situated just above the bone of the nose, and are connected with the nasal cavities by very tortuous canals which run backward almost in a horizontal direction. They are of considerable length and very irregular in size, the opening from the canal into the sinuses being only large enough to admit the end of a probe.

Now, in order to remove the trouble, a remedy must be applied which must reach the seat of the disease. To accomplish this it must reach the frontal sinuses. But how is this to be done?

Suppose that we attempt to apply a remedy in the form of snuff or powder, where will it go? Just as surely as dust will fall on the current of wind, so will snuff, and the current in this case is manifestly along the shortest line from the nose to the lungs, so that relief can only be obtained from that portion of the catarrhal inflammation which has worked downward into the nasal passages.

The nasal douche is an instrument which has been much lauded, and is as worthless as it is common. From the very anatomical nature of the parts, it is utterly impossible to throw any liquid into the frontal sinuses with such an instrument, for even if the sinus should be reached it would not fill for reasons to be stated presently.

Then what must we do? I'll tell you. Procure a bottle which will hold half a pint or so, bore a hole in it near the bottom about as large as a goose quill. This you can do by taking a steel drill and moistening it with turpentine. Then procure a small rubber tube two and a half or three feet in length; fasten one end of it into the hole you have drilled in the bottle and your instrument is complete.

Take chlorate of potash, 1 ounce, and dissolve as much as you can in a pint of water and use this as your remedy.

Now for the application. Having filled the bottle which has the tube attached, holding the bottle in the hand, lower than the head, place the other end of the tube in one side of the nose, and holding the nose so that it will not "leak," turn the head forward and downward, until the top is down as low as possible; then raise the bottle with the other hand as high as you can, and the pressure of the liquid column will force the liquid through every cavity. The object in lowering the top of the head, or rather inverting it, is this: The frontal sinuses, like small vials, will not fill if forced entirely under a liquid, as long as the mouth is downward, but as soon as inverted fill immediately. This is why they are not filled by a douche.

Tell our "lady" to throw away all patent nostrums and try this common sense treatment. Make the application twice per day and she will experience relief in a short time. To effect a complete cure the treatment must be continued for some time. To cure nasal catarrh is a "big job" and requires perseverance as well as medicine.

"I have said this much in mitigation of my plea," with as much brevity as the nature of the case would allow, and I hope our lady, who has the commendable good sense to read the *Gazette*, will only be one among the many who will profit by this little piece of advice.

G. G. PARKER, M. D.

THE STRONGEST TESTIMONY

Of any to be found in favor of any medicine that we have ever known, is that which we have recorded in the GAZETTE for the past year corroborative of the extraordinary powers of Dr. KEYSER'S BLOOD SEARCHER. Not simply here or there a case that set at naught all other tried remedies and compunds, but cases in every part of the city or vicinity, whose violence had defied every known means of cure. Dr. KEYSER'S BLOOD SEARCHER seems to possess almost talismanic virtues, equalled only by the extraordinary skill of the Doctor himself, when brought to bear against the inroads and ravages of disease. We have the pleasure herewith to append another certificate of cure by one of our most reliable citizens, which we commend to the notice of the afflicted:

TO DR. GEO. H. KEYSER:

Sir: Permit me to return to you my sincere thanks for the time, labor and expense which you have given in the search of that great combination of curatives which you have so wisely concentrated in your unequalled BLOOD SEARCHER.

I have used it in my family for the past two years with unfailing success and am fully convinced that it saved the life of one member of my family.

In cases of debility, of scrofula, of diseases of the eye, or any disorganization of the digestive organs, or of the blood, it has no equal.

I cheerfully bear my unsolicited testimony to its efficacy and powerful curative properties, and would unhesitatingly recommend it to the afflicted.

JOHN H. SAWYER.

Sold by the Gross, Dozen, or Single Bottle, at Dr. Keyser's Great Medicine Store, 167 Liberty street. Dr. Keyser's Consultation Rooms for all obstinate chronic diseases in the rear of his great medicine store, 167 Liberty street, from 10 A. M. until 1 P. M., and from 3 to 6 P. M.

A PITIFUL CONDITION.

It is a sad thing to pass through life only half alive. Yet there are thousands whose habitual condition is one of languor and debility. They complain of no specific disease; they suffer no positive pain; but they have no relish for anything which affords mental or sensuous pleasure to their more robust and energetic fellow-beings.

In nine cases out of ten this state of lassitude and torpor arises from a morbid stomach. Indigestion destroys the energy of both mind and body. When the waste of nature is not supplied by a due and regular assimiliation of the food, every organ is starved, every function interrupted.

Now, what does common sense suggest under these circumstances of depression? The system needs reusing and strengthening: not merely for an hour or two, to sink afterwards into a more pitiable condition than ever, (as it assuredly would do if an ordinary alcoholic stimulant were resorted to,) but radically and permanently.

How is this desirable object to be accomplished? The answer to this question, founded on the unvarying experience of a quarter of a century, is easily given. Infuse new vigor into the digestive organs by a course of Hostetter's Stomach Bitters. Do not waste time in administering temporary remedies, but wake the system up by recuperating the fountain-head of physical strength and energy, the great organ upon which all the other organs depend for their nurture and support.

By the time that a dozen doses of the great vegetable tonic and invigorant have been taken, the feeble frame of the dyspeptic will begin to feel its benign influence. Appetite will be created, and with appetite the capacity to digest what it craves. Persevere until the cure is complete—until healthful blood, fit to be the material of flesh and muscle, bone and nerve, and brain, flows through the channels of circulation, instead of the watery pabulum with which they have heretofore been imperfectly nourished. my5

Johnstown Improved Hydraulic Cement,

This Cement is equal to any cement made in the United States, in many respects better than the Louisville Cement or the Rosendale, and decidedly better in all respects than the Uniontown or Akron Cement. It has a smaller amount of shrinkage, sets gradual, bears as much sand as any cement made, and gets as hard; stands frost well it has all the qualities that hydraulic cement should have. The facilities for getting this cement is greater than all others in this market, less freight and fresher, which is an important matter. Having but a short distance to ship we can therefore sell cheaper than any other in the market.

DR. WHITTIER
296 PENN STREET, PITTSBURGH, PA
A regular Graduate of Medicine, as his Diploma at office shows, has been longer engaged in the treatment of Venereal, Sexual and Private Diseases than any other Physician in Pittsburgh. Syphilis, Stricture, Orchitis, all forms of Hernia and Rupture, all Urinary Diseases and Syphilitic or Mercurial affections of the Throat, Skin or Bones are treated with unparalleled success. Spermatorrhoea, Sexual Debility and Impotency, the result of self abuse in youth, sexual excesses in maturer years, or other causes, which produce some of the following effects, viz: Nervousness, debility, blotches, dizziness, dimness of sight, confusion of ideas, evil forebodings, aversion to society, loss of memory and sexual power, rendering marriage improper and life miserable, are permanently cured. Sealed pamphlet relating to the above sent for two stamps. Correspondence confidential; consultation free. It is self-evident that a Physician who treats thousands of cases every year must acquire great skill. Many physicians knowing this, recommend patients to his care. Medicines sent everywhere.
Office Hours, 9 A. M. to 9 P. M. Sundays, 1 to 3 P. M.

MONEY AND COMMERCE.

NEW YORK, June 6, 1871.

Gold strong at 112¼@112⅜ on large purchases by bears in stocks, who are trying to break the stock market by buying gold and borrowing money on it, with a view of creating a scarcity of money. It was in great demand to-day, and the following rates were paid for use per day: 3-64, 5-64, 1-16, 3-32, ⅛ and ¼ of 1 per cent. Late in the day a small lot was loaned flat. Clearances at the Gold Exchange Bank $117,413,000. Governments opened steady, and so continued until late in the day, when 5-20s of May and November advanced ⅛ per cent. Stocks have been strong and active, especially on Western Union, Lake Shore, Rock Island and Northwesterns. Bull cliques have been buying all day, and higher prices predicted, as the bears have so far failed in their efforts to prevent an upward turn. The market closed strong and well up to the highest figures of the day. There was an increased activity and animation, especially in favorite shares. Money abundant at 3@4 per cent. State Bonds dull and firm, without material change.

Sterling exchange 110¼.

PITTSBURGH MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, June 6, 1871.

ASHES—Common Soda Ash, 4¼@4½; refined do, 4¾@4¾; Pearls, 9@9½; Pots, 7¼@7¾.

BUTTER—Continues very dull but prices are nominally unchanged; 12@14c for fair to good and 15@16c for strictly prime. Grease Butter, 9@10 cts.

BEANS—There is some little inquiry for prime navy but common do not seem to be wanted at any price; the former may be quoted at $2.

BROOM CORN—Dull and unchanged.

BEESWAX—Quoted at 30@32 cts.

CEMENT—Louisville, $2,50@2,75 per bbl Rosendale, $4,00@4,50; Calcined Plaster, $4,25 @4,50.

CANNED GOODS—We are reported sales of Tomatoes at $2¼@2¾; and Corn at $2¼@2¾. Peaches, $3,25@3,50 for 3 lb cans, and $2,45 @2,50 for 2 lb cans.

CARBON OIL—Is quoted firm at 23¾@24 for standard brands—usual advance for small lots.

CHEESE—Dull but unchanged; prime Goshen, 13¼@14, prime Factory, 12¾@13; Dairy, 11@12.

COUNTRY BACON—Continues very dull but unchanged; shoulders, 6@6¼; ribbed sides, 7@7½; Hams, 10@12. Country Lard, 9@10.

CORN MEAL—We can report small sales at 85@90 cts per bushel.

EGGS—Continue to arrive pretty freely and the market is very dull and prices drooping; we now quote at 16@17c; the demand seems to have fallen off very materially within the past few days, owing mainly to the hot weather.

FRUITS—We are reported sales of new crop green apples, at $7@9 per bbl. Dried Fruit quiet and unchanged. Apples, 5@7 cts per lb; peaches, 10@11c for quarters; 11@12 cts for mixed and 13@14c for halves. Oranges scarce and higher both here and in the east; we now quote at $7,00@7,50 per box; Lemons $6,50@7. Turkey Prunes 10c. Currants 10@10¼. Layer Raisins, $3 per box; Valencia's 12¼@13 cts per lb.

FLOUR—Is firm and moderately active but there is no change to make in quotations, and the demand is almost entirely local. We continue to quote red winter wheat at $7,00@7,25; white wheat at $7,50; good spring extras, $7,00 and choice baker's flour, $7,25. Rye Flour, $6, in a small way.

FEATHERS—Quiet and unchanged; No. 1 live geese feathers, 74@75.

GREEN TRUCK—Is coming in freely and prices are drooping. New Potatoes have dropped to $5,50@6 per bbl, and cabbage is quoted at $2,50@3.

GRAIN—The receipts of Wheat continue meagre and with a steady milling demand prices are well maintained; $1,45@1,48 for red and $1,55@1,58 for white. While the reports generally are favorable for an average crop of wheat, yet so long as the arrivals continue light and the supply is not sufficient to meet the demand, there will be no decline in prices. Oats, in steady demand and firm and prices are again tending upward; we can report 2 cars at 63, and 2 do at 64—small lots, in store, may be quoted at 66@68. It is generally thought now that the oats crop in this section of country will be a light one, though it is not probable that there will be much, if any, further advance, in view of the fact that at present prices they can be brought from Chicago. Corn continues very dull, though there is no quotable change in prices; we are reported sales of mixed ear at 65; mixed shelled at 67@68 and prime yellow shelled at 69@70. Rye—none arriving, and, so far as we can learn, there is not much enquiry for it; we are reported an occasional small sale at $1,00.

GROCERIES—The grocery market is rather quiet, the demand having fallen off somewhat within the past week or two, but this is nearly always the case at this season of the year. As noted in our last report, sugars, both raw and refined, are firmer, and the latter a shade higher. Our advices from the east continue to report coffees very dull and weak, with a continued downward tendency.

COFFEE—Fancy Rio, 18¾; Prime, 17¾; Good, 16¾; Fair, 16; Roasting, 15¾@16.

SYRUPS AND DRIPS—White Honey, 72; Havemyer & Elders, 72; Silver Drips, 60; Lovering's, 65; other grades, 45@55.

SUGARS—Choice New Orleans, 11¾; prime, 11¼; good, 10¾; fully fair, 10¾; Porto Rico Sugars, 10¾@11¼; Cuba, 10@11; Demarara, 11¾ @12¼.

REFINED SUGARS—Hard Sugars, 14; A Coffee, 13; "B," 12¾; Extra C, 12¾; C. yellow, 12¼.

MOLASSES—New Orleans, choice, 70; prime, 68; good, 65.

TEAS—Fancy Young Hyson, $1 40; Good, $1 10; Fair $1. Lower grades down to 70cts. G. P. Fancy, $1 50; good, $1 25; fair, $1 10; Imperial Fancy, $1 40; good, $1 25; fair, $1; Oolong fancy, $1 25; good, 85cts; fair, 60@70c; Souchong fancy, $1 20; good, 90c; fair, 70@80c, Japan Fancy, $1; good, 90c; fair, 75c.

RICE—Choice Carolina, 10c; prime, 9¾c; good, 9c.

SPICES—Grain Pepper, 22c. Pimento, 17c. Cloves, 29c. Cassia, 55c.

HAY—Is in steady demand and prices are maintained; sales of baled, on wharf, at $17@19, according to quality and condition.

HUSKS—Quoted at 2½@2¾ cts.

HEMP—Rough Kentucky, $175 per ton; dressed, 14 cts per lb.

LIME—Sales of Cleveland at $2,25 per bbl and eastern at $1,75.

MILL FEED—Sales from store, in a jobbing way, at $1,40@1,50 for Bran; $1,65@1,85 for Middlings and $2,50 for oil meal.

OILS—Lard Oil continues dull and weak, and prices lower; we now quote No. 1 Extra at 83@85.

POTATOES—Are coming in more freely, and, in view of the fact that the season for the old crop is drawing to a close, holders generally are anxious to realize. We now quote at $1,15@1,20 by the car load and $1,25@1,30, for small lots, in store.

PEA NUTS—Quiet and unchanged at 10@10¼ cts.

PROVISIONS—Plain Shoulders, 7@7¼; ribbed sides, 9; clear sides, 10; canvassed sugar cured shoulders, 10@10¼; do hams, 14¾@15; Breakfast Bacon, canvassed 13; Dried Beef, 18@19. Lard, in tcs, 11 cts; in kegs and buckets, 12. Mess Pork, $17,00@17,50.

POULTRY—Dull but unchanged; live Chickens by the coop, at 68@75 cts per pair.

SEEDS—There is little or no inquiry for either Clover or Timothy Seeds and the season may be regarded as over. Flaxseed is scarce and wanted—may be quoted firm at $2,20@2,25.

SUMAC—Sales Tennessee Sumac at 4¾ cts.

WILLOWS—Sales Kentucky willows at 10

PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, TUESDAY, June 6, 1871.

The crude market was strong and considerably excited to-day, and prices have again advanced, though there was but little done, most of the refiners having bought sufficient to fill their refined contracts; this seems to be all they want for the present, being unwilling to pay the advance now demanded. The advices from above, both at Parker and on the creek, represented the market as being strong and considerably excited, with considerable inquiry both from Cleveland and the east; also, that settlements are being rapidly made—some 50,000 bbls are reported as having been settled to-day. On the other hand, refined, although firmer and a shade higher, was comparatively quiet, and, as has been the case for some days past, there is but little disposition manifested by eastern operators to either buy or sell, particularly for future deliveries, the policy being to stick mainly to the near by months.

CRUDE.

Little or nothing doing in Pittsburgh deliveries, and as has been the case for some time past, nine-tenths of the crude for this market is being bought above. However, seller June may be quoted at 13¾, delivered here, against sales yesterday 13¾; and seller all year at 12¾. Sales early in day of 4 cars at Parker at $5,17½; subsequently 10 cars at $5.20; 12 do at $5.25; and 18 cars at Foster at $5,25.

REFINED.

Firmer and a shade higher but quiet—not a single sale reported. June, 26; July 26¾; August 26¾; June to September, 26¾@26¾.

OIL BARRELS.

RIVER NEWS.

The river remains unchanged and navigation is virtually suspended. No arrivals or departures and it is not likely that there will be for some time to come.

The Juniata will probably return to Cincinnati from Rochester flying light.

—The St. Louis *Republican*, of Saturday, says: The Rover took out a large amount of iron ore last night for Pittsburgh. Plenty of water from here out to Cairo. There has been some improvements in shipments for some days past. Boats bound south yesterday had all the freight they could handle. We have been informed that business on the river is steadily improving. The prospects for an active trade for the next twenty days are now regarded as flattering. Railroads have not destroyed the river business between this city and the Ohio. On the contrary, there has been more freight shipped to and from the Ohio during the present season than for ten years before. It would take 122 miles of railroad cars to transport all the freight taken from and brought to this port by boats, barges and flats by water this year.

—A late St. Louis paper says: Captain Holmes, one of the owners of the burned "Belle of Alton," received a dispatch yesterday from Captain John Bruner, now in New Orleans, stating that the jury before whom W. W. Marsh was examined had failed to find any evidence of his complicity in the destruction of that steamer, and he was, therefore, honorably discharged. What will become of Nixon, who swore so hard, and as it has turned out, falsely against him, has not yet transpired. Mr. Marsh bears an excellent character, and his many friends will be only too happy to hear of his acquittal. He will arrive home in a day or two, and resume his position as chief engineer of the Capitol City.

—Various rumors of late have been circulated to the effect that the iron steamer John T. Moore, running on Red River as an independent boat, has been obliged to succumb to the fierce opposition of Jesse K. Bell's combination, but the following, cut from the Louisiana (Alexandria) *Democrat*, gives assurance that the Moore is still ahead of the "hounds!" "The combination have sickened making false tilts at the iron steamer John T. Moore. After this she will be 'left alone in her glory' and well earned speed, and every other attribute combined to make up a perfect steamer. She reached here before 9 A. M. Monday, with a good freight and full of people.

—The river shipments of iron ore by the Iron Mountain Company, from May 28th to June 3d, inclusive, amounted to 5,725 tons, as follows:

To Ashland	2,595
To Pittsburgh	1,265
To Wheeling	670
To Ironton	300
To Grand Tower	375
To Cincinnati	270
To New Albany	250

Charcoal pig iron shipped to the Ohio for same time 1,154 tons.

—Supplies for the Indians, under the Parker or government contract, are now on the way and will, it is believed, reach their destination in good time. Last night the Esperanza left with 300 tons sugar and bacon for sundry posts on the upper Missouri. The Viola Belle left last evening for Benton. The Silver Lake takes her departure to-morrow for Benton. The Far West and other boats will also take cargoes at an early day. The prospect of a good stage of water for mountain boats is excellent.—*St. Louis Democrat*, 5th.

—The Memphis *Avalanche*, of Friday, says: The towboat J. H. Bigley will be up to-morrow with empty barges. She goes to Columbus, Kentucky, where there is a tow of 250,000 bushels of coal awaiting her to be brought down to this city for Bigley & Meliersh.

The Simpson Horner and empty barges passed up yesterday.

The Baltic passed down for the mouth of White river, with nine coal barges for account of Brown & Jones.

—Capt. Harry G. McComas attempted suicide by shooting himself in the head at New Orleans, Thursday. At latest accounts his recovery was doubtful. No cause for the rash attempt can be assigned by his friends, as his family relations were of the pleasantest, and his business in a flourishing condition. He was a steamboatman of twenty years' experience.

—The New Orleans *Republican*, of Friday, says: Captain Thos. W. Rea will leave on Sunday, or before, for Pittsburgh, to examine the new steamer Belle Rowland, which he is having constructed to run in Red River in connection with the St. Louis Carter's Line.

—John McGrath, a Pittsburgh steamboatman, died at the Charity Hospital, New Orleans, on Sunday, from the bite of a viper received at Kennersville, Louisiana. He left his family at Pittsburgh, who are in destitute circumstances.

—The Belle Vernon left St. Louis for the Ohio River, via. the iron pile, on Saturday.

SPECIAL NOTICES.

☞CONSUMPTION.

Its Cure and its Preventive.

BY J. H. SCHENCK, M.D.

Many a human being has passed away, for whose death there was no other reason than the neglect of known and indisputably proven means of cure. Those near and dear to family and friends are sleeping the dreamless slumber into which, had they calmly adopted

DR. JOSEPH H. SCHENCK'S SIMPLE TREATMENT,

and availed themselves of his wonderfully efficacious medicines, they would not have fallen.

Dr. Schenck has in his own case proved that wherever sufficient vitality remains, that vitality, by his medicines and his directions for their use, is quickened into healthful vigor.

In this statement there is nothing presumptuous. To the faith of the invalid is made no representation that is not a thousand times substantiated by living and visible works. The theory of the cure by Dr. Schenck's medicines is as simple as it is unfailing. Its philosophy requires no argument. It is self-assuring, self-convincing.

The Sea-weed Tonic and Mandrake Pills are the first two weapons with which the citadel of the malady is assailed. Two-thirds of the cases of consumption originate in dyspepsia and a functionary disordered liver. With this condition the bronchial tubes "sympathize" with the stomach. They respond to the morbification of the liver. Here then comes the culminating result, and the setting in, with all its distressing symptoms of

CONSUMPTION.

The Mandrake Pills are composed of one of Nature's noblest gifts—the Podophillum Peltatum. They possess all the blood-searching, alterative properties of calomel, but, unlike calomel, they

"LEAVE NO STING BEHIND."

The work of cure is now beginning. The vitiated and mucuous deposits in the bowels and in the alimentary canal are ejected. The liver, like a clock, is wound up. It arouses from its torpidity. The stomach acts responsively, and the patient begins to feel that he is getting, at last,

A SUPPLY OF GOOD BLOOD.

The Sea-weed Tonic, in conjunction with the Pills, permeates and assimilates with the food. Chylification is now progressing without its previous tortures. Digestion becomes painless, and the cure is seen to be at hand. There is no more flatulence, no exacerbation of the stomach. An appetite sets in.

Now comes the greatest Blood Purifier ever yet given by an indulgent father to suffering man. Schenck's Pulmonic Syrup comes in to perform its functions and to hasten and complete the cure. It enters at once upon its work. Nature can not be cheated. It collects and ripens the impaired and diseased portions of the lungs. In the form of gatherings, it prepares them for expectoration, and lo! in a very short time the malady is vanquished, the rotten throne that it occupied is renovated and made new, and the patient, in all the dignity of regained vigor, steps forth to enjoy the manhood or womanhood that was

GIVEN UP AS LOST.

The second thing is, the patients must stay in a warm room until they get well; it is almost impossible to prevent taking cold when the lungs are diseased, but it must be prevented or a cure cannot be effected. Fresh air and riding out, especially in this section of the country, in the fall and winter season, are all wrong. Physicians who recommend that course lose their patients, if their lungs are badly diseased, and yet, because they are in the house they must not sit down quiet; they must walk about the room as much and as fast as the strength will bear, to get up a good circulation of the blood. The patients must keep in good spirits—be determined to get well. This has a great deal to do with the appetite, and is the great point to gain.

To despair of cure after such evidence of its possibility in the worst cases, and moral certainty in all others, is sinful. Dr. Schenck's personal statement to the Faculty of his own cure was in these modest words:

"Many years ago I was in the last stages of consumption; confined to my bed, and at one time my physicians thought that I could not live a week; then, like a drowning man catching at straws, I heard of and obtained the preparations which I now offer to the public, and they made a perfect cure of me. It seemed to me that I could feel them penetrate my whole system. They soon ripened the matter in my lungs, and I would spit up more than a pint of offensive yellow matter every morning for a long time.

"As soon as that began to subside, my cough, fever, pains and night sweats all began to leave me, and my appetite became so great that it was with difficulty that I could keep from eating too much. I soon gained my strength, and have grown in flesh ever since.

"I was weighed shortly after my recovery," added the Doctor, "then looking like a mere skeleton; my weight was only ninety-seven pounds; my present weight is two hundred and twenty-five (225) pounds, and for years I have enjoyed uninterrupted health."

Dr. Schenck has discontinued his professional visits to New York and Boston. He or his son, Dr. J. H. Schenck, Jr., still continue to see patients at their office No. 15 North Sixth street, Philadelphia, every Saturday, from 9 A. M. to 3 P. M. Those who wish a thorough examination with the Respirometer will be charged $5. The Respirometer declares the exact condition of the lungs, and patients can readily learn whether they are curable or not.

The directions for taking the medicines are adapted to the intelligence even of a child. Follow these directions, and kind Nature will do the rest, excepting that in some cases the Mandrake Pills are to be taken in increased doses: the three medicines need no other accompaniments than the ample instructions that accompany them. First, create appetite. Of returning health hunger is the most welcome symptom. When it comes, as it will come, let the despairing at once be of good cheer. Good blood at once follows, the cough loosens, the night sweat is abated. In a short time both of these morbid symptoms are gone for ever.

Dr Schenck's medicines are constantly kept in tens of thousands of families. As a laxative or purgative the Mandrake Pills are a standard preparation; while the Pulmonic Syrup, as a cure of coughs and colds, may be regarded as a prophylacteric against consumption in any of its forms.

Price of the Pulmonic Syrup and Sea-weed Tonic $1 50 a bottle, or $7 50 a half dozen. Mandrake Pills 25 cents a box. For sale by all druggists and dealers. ap18:p3-MWF

☞SICK AND AFFLICTED, READ!—Time must necessarily be the final test of everything. The many failures pass out of sight and thought; only the few successes are remembered. This is especially true of the science of medicine. A volume would hardly contain the mere names of the medicinal compounds devised during this century, yet the successful ones may be told upon the fingers. Of these latter the best proved are SWAYNE'S FAMILY MEDICINES, which have been tested by more than thirty years of steadily increasing use throughout the globe, and have received the warmest commendation and support from the most enlightened members of the Medical Faculty in every school of practice.

DOLLAR SAVINGS BANK,

No. 124 Fourth Ave.

CHARTERED IN 1855.

ASSETS $2 891 335.18.

Open daily from 9 o'clock A. M. to 3 o'clock P. M., and SATURDAY EVENINGS, from May 1st to November 1st, from 7 to 9 o'clock, and from November 1st to May 1st, from 6 to 8 o'clock.

Deposits received of all sums of not less than ONE DOLLAR, and a dividend of the profits declared twice a year, in June and December. Interest has been declared semi-annually in June and December, since the Bank was organized, at the rate of Six Per Cent. per year.

Interest, if not drawn out, is placed to the credit of the depositor as principal, and bears the same interest from the first days of June and December, compounding twice a year, without troubling the depositor to call, or even to present his pass book. At this rate money will double in less than twelve years.

Books containing the Charter, By-Laws, Rules and Regulations, furnished gratis, on application at the office.

GRATES. GRATES.

Keep Your Houses Clean,

AND

SAVE FUEL.

BY USING THE

Wellman Patent Reflector

STOVE AND GRATE.

Which Stand Without a Rival.

The WELLMAN STOVE is furnished with the "REFLECTOR GRATE," and possesses all the advantages of an open fire place; it is specially adapted to houses where the flues are too small to admit a grate, and affords all the comforts of a CHEERFUL OPEN FIRE.

1st. As a radiator of heat it has *double* the intensity of any other grate.

2d. It is unquestionably the most cleanly—no soot or ashes escaping into the room—which, in the ordinary Grate, proves so detrimental to carpets and furniture.

3d. The combustion is *perfect*. There is no waste in unburnt cinders—every ounce of the fuel is so completely consumed, that nothing remains but the finest ashes.

4th. As an economizer of fuel—there being an *actual saving* of at least 25 per cent.

5th. It is highly ornamental.

6th. It is set so deep in the chimney, that it is much safer, and also less liable to puff in windy weather.

7th. A slight motion of the shaker cleanses the entire fire, and causes it to burn with great brilliancy and intensity of heat.

Samples may be seen and references had at the store of W. BARNES, corner of 3d avenue and Market street, Pittsburgh; W. F. GOODWIN, 66 Federal street, Allegheny, or at the FOUNDRY, corner Duquesne Way and Water street, Pittsburgh.

Parties who are building, or who contemplate changing Grates, are respectfully requested to examine "The Wellman." Satisfaction guaranteed in all cases.

HOME NEWS.

Persons leaving the city for summer resorts can have the Daily GAZETTE mailed to them by leaving their addresses at our counting room.

Third National Bank was sold last evening by A. McIlwaine, auctioneer, at his Stock Sales Rooms, 106 Smithfield street, for $134.

It will be noticed that among the advertised Wants, that a Clerk and also an assistant Housekeeper or officer of the Laundry is wanted at the House of Refuge.

Allegheny Nuisances.—A correspondent complains most justly of the wagon and rubbage nuisance in Park Way. He might with like justice have exposed the miserable condition of the portions of Gay and Middle alleys next to the Market Square, with which they are intended to communicate.

Interesting Ceremonies.—The Trustees of the Pennsylvania Female Seminary are about to erect a large extension to the present building, the corner stone of which will be laid with fitting ceremony at five o'clock P. M. to-morrow. The occasion will be one of special interest to the friends of a first-class seminary for young ladies, and will be attended by numerous citizens. A train will leave Union Depot at 4:20 P. M.

Pittsburgh Nuisances.—The clothing stores at the intersection of Market and Liberty streets, besides occupying too much of the sidewalk with their goods, which, in the interests of trade, might be overlooked, infest the same sidewalk with bummers seeking to victimize every passenger whom they think they can coax or coerce into their stores, with active, noisy, and often obscene and profane clamor at each other among the representatives of the rival shops. An efficient police officer is greatly needed here.

Police Notes.

James Eivins got a little "how come you so" Monday and drove recklessly around the Allegheny Parks almost running over some women and children. The police laid hold of James and yesterday morning he was released by paying a fine of twenty-five dollars and costs imposed by Mayor Callow.

Philipsburg Soldiers' Orphans School.

At a special meeting held by the soldiers' orphans connected with the above school, June 4th, the following resolution was adopted:

Resolved, That the soldiers' orphans of the Philipsburg School tender their thanks to Colonel N. N. Smith for the great kindness he manifested in the various arrangements to meet their wants and wishes on the occasion of dedicating the Soldiers' Monument in Allegheny City.

Grace Memorial Church Festival.

This festival as we announced began on Monday night at City Hall, and will continue every day and evening this week. The attendance thus far has been encouraging, and besides the good things which abound, and the grand chorus of vocal music, visitors should be lured to this festival by the worthy object to which the proceeds are dedicated—the erection of a memorial church, for our colored Presbyterian brethren, who greatly need and well deserve the sympathy and aid of their more prosperous christian friends.

Bold Larceny.

Yesterday afternoon a bold larceny was perpetrated in the Diamond Market, by a quartette of boys, whose ages range from twelve to fifteen years. Their names are Frank Hooper, O'Brien, Maloy and Jones. They were loafing about the butchers' stalls, and among others, they visited that of Henry Kreiling who had laid down his bank book, containing $325. One of the young thieves snatched the book, and the four scampered away together. The police were notified, and one of the lads, (Hooper) was arrested and locked up. From him, it was ascertained that the money was concealed by the others, but the police have not succeeded in finding it.

Meeting of Stockholders—Officers and Directors Elected.

A meeting of the stockholders of the new Tripartie Bridge Company was held at the St. Charles Hotel, Tuesday morning. James Caldwell, Esq., was called to the chair, and Messrs. Wm. S. Brown and David Robinson appointed Secretaries. The chairman announced that the meeting was called for the purpose of formally organizing the new company according to the provisions of its charter, and choosing a board of officers to serve until the regular election in January next. The following ticket was put in nomination and unanimously elected: President, Hon. J. K. Moorhead; Secretary, David Robinson; Treasurer, John R. McCune; Directors, D. Hostetter, Jas. T. Wood, Jos. Walton, James Caldwell, R. F. Smith, W. S. Jackson.

After a vote of thanks to Harry Shirls, Esq., the gentlemanly proprietor of the St. Charles Hotel, for the use of his parlors, the meeting adjourned.

Organization of New Savings Bank.

At a meeting of stockholders of New Savings Bank, held at the Central Hotel, the meeting was called to order by calling Hon. Jared M. Brush to the chair, and Thos. Tack, secretary.

The President read the call of the meeting. On motion of Andrew Lyons that a committee of three be appointed for the purpose of suggesting names for Board of Directors. Carried, and the following gentlemen were appointed: Dr. George H. Keyser, Major J. M. Bell.

The Committee reported the following names: N. C. Sawyer, W. H. Sims, Thomas E. Tack, Wm. Bissell, J. McC. Creighton, W. H. Cluby, Robt. Philips, Jacob Reese, W. A. Tomlinson, Jno. H. Page, Jr; George C. Reis.

It was moved and seconded that the Committee be approved. Mr. Bissell moved, seconded by A. Lyons, that the Secretary be empowered to cast a vote for Directors, as suggested by the Committee. The names suggested by the Committee were duly elected as Directors. The President called upon the meeting for the naming of the Bank. After a vote the meeting decided to call the Bank the "United Savings Bank." Adjourned.

The Western Associated Press.

This morning at ten o'clock, at the Lincoln Club Rooms, No. 68 Smithfield street, the Western Associated Press of the United States will hold an annual business meeting. The following ladies and gentlemen arrived yesterday and are stopping at the Monongahela House: Joseph Medill, Chicago *Tribune*, and lady; W. H. Smith, General Manager Western Associated Press, and lady; J. B. McCullough, Chicago *Republican*; Murat Halstead, Cincinnati *Commercial*; Wm. Hyde, St. Louis *Republican*; D. M. Houser, St. Louis *Democrat*; Eeenie McHenry, St. Louis *Dispatch*; W. W. Coleman, Milwaukee *Herald*; R. E. Davies, St. Paul *Pioneer*; H. P. Hill, St. Paul *Dispatch*; H. E. Baker, Detroit *Tribune* and Secretary of the W. A. P.; H. N. Walker, Detroit, President of the Western Associated Press; Col. R. Holloway, Indianapolis *Republican*. Some fifty other delegates were expected to arrive last night and this morning. The meeting promises to be very largely attended. On Friday morning an excursion will be held to Chatauqua Lake, in New York, and the spare time meanwhile will be filled by showing our distinguished guests what is to be seen in our great city of smoke and industry.

Again in Operation.

The Enterprise Roofing Company, who were burned out April 25, are again at work and ready to fill all orders for roofing at short notice. The works of this company were rebuilt within twenty days after the fire, and are now in successful operation. The company have, within the past two weeks, covered a number of dwellings and store buildings, of which the following are a portion: Mrs. Blume's two buildings on the southwest corner of Wood street and Diamond alley; Wray McCormick buildings, opposite Graff, Hugus & Co., Liberty street; England & Bindley's hardware store, Liberty street; Wm. Summers & Co.'s stables, Water street, and a number of others. This roofing is fire as well as waterproof, and will, without doubt, entirely supercede gravel and shingle roofing. Old shingles can be removed from buildings and this used in place. It is not an untried roofing being introduced for the purpose of testing, but has already stood the test of five years in Chicago, Memphis and Vicksburg, and for two or three years in many other places. It withstands the summer's heat and winter's cold equally, and will give entire satisfaction to all using it. The office and works of the company are at 571 Liberty street, where Mr. W. W. Brown, Secretary, will with pleasure give all explanation and information that may be desired. We understand that the cost of the excellent roofing is much less than shingles, or even of the gravel roofing considering the durability of each.

TRIPARTITE BRIDGE COMPANY.

Meeting of the Stockholders at St. Charles Hotel Yesterday—Election of Officers and Directors.

A meeting of the Stockholders for the purpose of formally organizing this new Company was held at St. Charles Hotel yesterday morning. James Caldwell, Esq., was called to the chair and Wm. S. Brown and David Robinson appointed Secretaries. A temporary board of officers were chosen to serve until the regular election in January 1872. The following persons were elected: President—Hon. J. K. Moorhead; Secretary—David Robinson; Treasurer—John R. McCune; Directors—D. Hostetter, James T. Wood, Jos. Walton, James Caldwell, R. F. Smyth, W. S. Jackson.

A vote of thanks was returned to Mr. Shirls for his kindness in granting the use of the St. Charles parlors for the meeting. The meeting then adjourned.

THE BREWERS.

A National Convention to be Held To-Day—Delegates Arrived.

The brewers of the United States will hold a National Convention in our city to-day. The attendance of delegates promises to be very large. The following arrivals we notice at the Monongahela House last night: Col. Louis Schade, Washington, representing the Revenue Department; Gustavus Bergner, C. W. Bergner, Peter Baltz, Theodore Engel, Henry Lawser, Philadelphia; Chas. Anhaeuser, Mr. Jacobs, St. Louis; Fred Lauer, Reading, Pa.; D. Yuengling, Pottsville; E. Portner, Alexandria, Va.; Albert Blatz, Jacob Obermann, Milwaukee; Charles G. Geissele, Fred. Kauffman, Alderman Wagner, Gustavus Wedemeyer, Fred. Voltz, Newark, N. J.; Peter Ablas, Jacob Ablas, Henry Clawson, Peter Doelger, John Eichler, Philip Ebling, Christ. Huepfel, Joseph Kuntz, Philip Merkle, Jacob Ruppertt, Joseph Schmidt, Fred. Schaefer, Michael Seitz, Theodore Krauch, E. Koenigsberg, Albert Meyer, Richard Katzenmeyer, Jacob Sigel, A. Schwarz, (editor *American Brewer*) New York.

The principal western cities will have delegates in attendance to-day. The meeting will be held in the parlors of the Monongahela House and after adjournment the guests will be escorted by our home brewers to various points of interest around and about the city.

The Resolutions.

HARMONIOUS PROCEEDINGS, &c., &c., &c.

Yesterday was Convention day for the Republicans of Allegheny county. The delegates from the election districts, with but few exceptions, were in attendance, and the proceedings were marked by a harmony which has never been so observable in any public gatherings of the kind in this vicinity. By the new system adopted, of dividing the work among several conventions, a great deal of the confusion incident to such assemblages was avoided, and the business was transacted much more impartially and in considerably less time—the wisdom of the new arrangement being thus made apparent. What they did, who has been nominated, and how it was done, will be found below, to which our readers are directed for full information.

CONVENTION NO. 1.

Controller, Treasurer and Director of the Poor, Met in the District Court room and was called to order by H. M. Long, Esq., Secretary of County Executive Committee, who announced that the first thing in order would be the appointment of temporary secretaries.

The following gentlemen were then unanimously elected: Messrs. Thomas H. Phelps, R. M. Snodgrass, Wm. H. McCleary, Joseph Caskey and Alex Patterson.

The Chairman then announced that the next thing in order would be the reception of credentials, which were then presented, all the districts being represented, excepting Indiana township, which was contested.

On the completion of the reading of the list of delegates, the chair announced that the nomination of a permanent chairman was then in order.

Hugh McNeill, Esq., of the Fourth ward, Allegheny, was elected by acclamation.

Mr. McNeill, on taking the chair, stated that he was no speech-maker, and supposed the Convention did not want to hear from him. He further said that we had met to nominate candidates for Controller, Treasurer and Director of the Poor, and he hoped that good and true men would be put on the ticket. After thanking them for the honor conferred, he announced that the Convention was ready for business.

A delegate moved that in conducting the nominations, the *viva voce* system be adopted. Carried unanimously.

On motion the temporary Secretaries were elected permanent Secretaries.

The chair appointed Messrs. Johnston of Bellevue; Trimble of 6th ward, Allegheny; Sneathen of 22d ward, Pittsburgh, committee on contested seat in Indiana township. They afterwards reported in favor of Wm. Genet.

The chairman announced that nominations were then in order.

For Treasurer—Samuel Kilgore, Archibald Pillow, Thos. D. Patterson, Wm. A. Herriott, were put in nomination.

For Controller—Henry Warner, W. C. Friend, Henry Snively, were suggested.

For Director of the Poor, Jas. G. Murray, was nominated by acclamation by the delegates from the county, there being no opposition.

The first ballot was then taken with the following result, each delegate calling out for whom he voted:

FOR TREASURER.

Kilgore	56
Pillow	31
Patterson	27
Total	114

Herriott withdrawn.

FOR CONTROLLER.

Warner	55
Friend	45
Snively	14
Total	114

There being no choice, a second ballot was ordered, which resulted as follows: Kilgore (the others having been withdrawn before the ballot was completed) was elected by acclamation amidst great enthusiasm.

FOR CONTROLLER.

Warner	72
Friend	42
Total	114

Snively withdrawn.

Mr. Warner was then declared the nominee for Controller, and upon being brought forward, thanked the Convention for the honor conferred on him.

Pending the count by the secretaries, the Chair appointed the following gentlemen a Committee on Resolutions: Messrs. David Aiken, Jr.; Denny O'Neill, Samuel Hastings, who now reported the resolutions, which appear in another place, and which were unanimously adopted. They endorse the State nominees and platform adopted by the Republican State Convention, and pledge Allegheny county for her usual majority. After giving three rousing cheers for the ticket nominated, the Convention adjourned *sine die*.

CONVENTION No. 2.

Commissioner and Surveyor.

Convention No. 2, for the nomination of candidates for County Commissioner and County Surveyor, was held in the Common Council Chamber, City Building. By ten o'clock A. M. nearly all the delegates from the various districts of the county had assembled, and a temporary organization was effected, with W. B. Negley, Esq., as President, and Thos. S. Maple, K. S. Clark, W. J. Friday and Wm. Campion as secretaries.

LIST OF THE DELEGATES.

The Chair announced that the first business in order was the calling over by the Secretaries of the districts and the presentation of credentials by the delegates. This business was at once proceeded with, and credentials were handed in as follows:

PERMANENT ORGANIZATION.

The chair announced that the selection of a permanent President and Secretaries would be in order.

Gen. Thomas M. Howe and Mr Wm. M'Kim, were nominated for permanent President.

The chair said—"All who are in favor of Gen. Howe as permanent President, will say 'aye.' Those who are opposed will say 'no.'"

The chair then decided that Gen. Howe was elected.

A member thought Mr. M'Kim ought to have a show, and he therefore called for a division.

The chair—I have already decided that Gen. Howe is elected. If he chooses to decide otherwise he can come forward and do so.

Gen. Howe said he could not take the position under the circumstances. A division had been called for by a very respectable number of the delegates, and he would insist, therefore that the question be properly determined.

A division was thereupon taken, resulting in ayes, 58; nays, 44. Gen. Howe then came forward and in assuming the station of Presiding officer, made the following remarks:

SPEECH OF GEN. HOWE.

GENTLEMEN: I thank you for the honor of being called to preside over the deliberations of this Convention and can only promise you in return that I will endeavor to discharge the duties of the Chair with impartiality.

The business which the County Executive Committee has assigned to this section of the Convention is to place upon the general ticket candidates for two offices to be voted for at the next election, the offices of County Surveyor and County Commissioner. Both of these offices are executive in their character and require for the proper discharge of the duties which they involve men of capacity and unquestionable integrity. To the former is confided the duty of defining the limits and bounds of your property, while to the latter is assigned the supervisory control over the question of its taxation.

The office of Commissioner is perhaps the most important one of the county, for there has been added to its ordinary duties the duty formerly belonging to the courts, of licensing taverns for the accommodation of strangers and travelers. By the act of Assembly the three Commissioners are constituted a license board with full and exclusive control over the whole subject, and without appeal to the courts.

It becomes vastly important, therefore, that the persons selected for this office should be gentlemen of intelligence, capable of comprehending fully the object and purposes of the law which they are called upon to minister. Above all that they have the honesty and moral courage so to discharge the duty that the best interests of the community may be consulted and the supremacy of the law at all times resolutely and firmly maintained.

I trust, gentlemen, that harmony and good feeling may characterize our deliberations, and that the result of our labors may redound to the best interests of the community at large.

It was moved that the present Secretaries be continued in their positions. Carried.

A motion that the voting be done *viva voce* was carried.

In calling over the list of districts it was discovered that there were two sets of credentials from West Elizabeth borough—there being a "tie" in that district.

Mr. McCormick moved that a Committee on Contested Seats be appointed. Carried.

The Chair—Of how many shall the committee consist, and how shall it be appointed?

Many Voices—"Three;" "five;" "by the Chair;" "by the Convention."

It was finally decided that the committee should consist of five, and that the Convention should appoint.

The following named gentlemen were then appointed: Messrs. Jacob Rush, Wm. McKim, John Fralich, John C. Risher, R. F. Smith.

Mr. Paisley here moved that when the Convention adjourns, it adjourns to meet at one o'clock P. M. He said that by that time there might be two vacancies in the Commissioners' office.

Capt. Graham moved to amend—that the Convention proceed at once to the nomination of candidates.

A vote was taken, and the chair announced that "the ayes appeared to have it."

A division was called for, and resulted in—ayes, 51; nays, 42. So the question was decided in the affirmative.

It was here suggested by a delegate that the Convention should not proceed to business until the questions as to contested seats had been determined.

A motion to adjourn till one o'clock was again made, and this time it was carried.

AFTERNOON SESSION.

Convention No. 2 reassembled at one o'clock P. M., and was called to order by the President, Gen. Howe.

The report of the Committee on Contested Seats was called for, when the chairman of that committee arose and presented it. The report set forth that credentials had been presented by Messrs. Udan and Lynch, each of whom claimed to have received nineteen votes. It was in evidence before the committee that Mr. Lynch had been voted for as a delegate to another convention, and as he did not appear in person before this body to claim a seat, the committee felt constrained to report in favor of Mr. Udan. The contestants were from West Elizabeth.

The report was signed by all the members of the committee save one. This member stated that he had no objection to the report, except that portion of it which stated, as a reason for deciding against Mr. Lynch, that he was not present. Mr. Lynch was not here because he considered the vote a tie, and that neither he nor Mr. Udan were entitled to seats.

It was moved that the report be accepted, and the motion was carried.

The Chair stated that the acceptance carried with it the adoption of the report, and, there being no objection, the report stood adopted.

NOMINATION FOR COMMISSIONER.

Nominations for a candidate for County Commissioner were declared in order, when James McGunnigle of McKee's Rocks, and Joseph Dilworth of the Twenty-second ward were placed in nomination.

Capt. Cooper moved that the clerks in calling over the districts be instructed to commence at the foot of the list. Carried.

COUNTY SURVEYOR.

Nominations for County Surveyor were then made as follows: Robert Clugston and M. B. Goff.

A motion was made that the room, the except lobby, be cleared of all persons not delegates to this Convention. The motion prevailed.

The voting for a candidate for Commissioner, was then proceeded with, but after some fifty or more districts had been called, a delegate arose and stated that he could point out a man who had voted three times.

Another delegate—I would like to see the man who voted for Moon township.

There was some confusion at this point, and loud cries of "put him out."

The President arose and, after order had been restored, addressed the convention, counselling harmony and honesty in their deliberations.

A clamor was again raised about outsiders being admitted to the floor.

The President said he had no power to put those persons out, but he hoped they would have the courtesy to retire.

A delegate moved a reconsideration of the vote on the motion to ballot for Commissioners. He said it was certainly the wish of the delegates that the nominations be fairly made, and as there had been complaints made by several of the delegates, he thought it proper that the voting should be commenced anew. The motion was carried unanimously, and the clerks proceeded again to call over the districts, commencing, as before, at the foot of the list.

The ballot resulted as follows: Dilworth, 66; McGonnigle, 51.

It was now moved that Mr. Dilworth's nomination be declared unanimous.

After the question had been put and voted on, the President said: "It appears to the Chair that the ayes have it, but it is clearly not unanimous. Therefore the motion is lost. Mr. Dilworth has received sixty-six votes, and Mr. McGonnigle fifty-one. Mr. Dilworth is therefore the nominee of the party for Commissioner."

A vote was then taken on County Surveyor, resulting as follows: Clugston, 76; Goff, 7. Mr. Clugston was declared the nominee.

The nomination was, on motion, made unanimous.

It was now moved that Mr. McGonnigle be declared the nominee of the party for Commissioner in the event of a vacancy in the Board.

The President decided that the motion was not in order. It was not in the power of this Convention to make a nomination in view of a contingency.

The following offered by Mr. Newmeyer, was passed unanimously:

Resolved, That we heartily endorse the nominations made for State officers by the Republican State Convention at Harrisburg, and will use our best efforts to promote their election.

Resolved, That we also approve, endorse and adopt the platform of that Convention as expressing fully, clearly and satisfactorily the views held by the Republicans of Allegheny county.

After a vote of thanks had been tendered to the officers, the Convention adjourned *sine die*.

CONVENTION NO. 3.

District Attorney and Assistant District Attorney.

This convention met in the room of the Court of Common Pleas. It was called to order by B. C. Christy, temporary chairman, appointed by the County Executive Committee, at the hour of 10 o'clock.

Quite a number of delegates were absent at the opening of the Convention but nearly all came in before any business of importance was transacted.

The Convention was perhaps the most orderly political gathering that has been held about the Court House for years, and their business was executed with such precision and dispatch as to deserve special commendation. Immediately after the meeting had been called to order by Mr. Christy, it was moved by W. C. McCarthy and carried, that Messrs. J. A. McDonald, W. J. Diehl, James Bradley and W. A. Woodward act as temporary Secretaries. The chair then appointed James Larimer as doorkeeper. On motion, proceeded to the calling of the roll of the delegates.

The following are the delegates:

Stowe—John A. Nicker.

During the calling of the roll, on motion of Hugh S. Fleming, Esq., Messrs. Jos. A. Butler and Joel Bingham were appointed additional Secretaries, Messrs. Woodward and Bradley not having responded to the call of their names. After the credentials had been handed in, on motion of Sheriff Fleming, A. M. Watson, Esq., was elected permanent President, and upon taking the chair indulged in a few appropriate remarks, thanking the Convention for the honor conferred on him, and exhorting the Republican party to be prepared for the *new* contest with the *old* principles of the Democratic party.

On motion of Mr. McCarthy, the temporary Secretaries were made permanent.

There were two aspirants for the seat of the West Elizabeth delegate, both of whom were, on motion of Thomas Fergus, Esq., in order to save time, admitted to the floor of Convention. The Convention then, by a motion, proceeded to

THE NOMINATIONS.

It was moved and carried that the election be *viva voce*.

The following nominations were then made: *For District Attorney*—Thos. M. Bayne, G. R. Cochran.

For Assistant District Attorney—J. B. Flack, H. C. Mackrell, John Glenn.

On motion the nominations closed. The Chair then stated that he had received a letter from Mr Cochran, withdrawing from the contest, which letter would be read by one of the Secretaries.

The following is a copy of the letter:

To the President and members of the Republican Convention No. 3.

GENTLEMEN: Profoundly grateful for the generous support tendered to me, as a candidate for the office of District Attorney, yet convinced that my acceptance of the office would involve public duties and responsibilities, for the next three years, which would seriously affect my private and professional business—already sufficiently important and lucrative to justify and require my undivided attention—I am constrained to overrule the wishes of my friends and the public generally, by reluctantly, but firmly, withdrawing my name from the list of candidates. I am all the more satisfied with this conclusion because my worthy competitor, Col. Bayne, in whose favor I decline, and whose nomination I trust will be unanimous, is so well qualified to worthily excercise the functions of the office. I may be allowed to add at this early date (so that other aspirants may not be disappointed as to the future) that I propose to shape my business so as to enable me to gratify my friends by accepting the office at the close of the next term.

With sentiments of high regard, I am, gentlemen, your esteemed fellow citizen.

GEORGE R. COCHRAN.

Pittsburgh, June 6, A. D. 1871.

On motion of Alderman Eggers, Col. Bayne was unanimously nominated.

Col. Bayne was then introduced to the Convention and in a few happy and pertinent remarks expressed his thanks for the honor conferred upon him and the confidence reposed in him by his constituents.

Mr. Fleming then announced that he was authorized to withdraw the name of Mr. Mackrell from the list of candidates for Assistant District Attorney.

Proceeded to the calling of the roll for votes of delegates, for Assistant District Attorney. During the calling of the roll a delegate withdrew the name of Col. Glenn.

On motion, Mr. Flack was then unanimously nominated. Repeated calls for Mr. Flack at length brought him to the floor, where in a few timely and well chosen words he thanked the Convention for the honor he had received at their hands.

On motion of Mr. Christy, the Chair appointed a Committee of four to act with three similar Committees to be appointed, one by each of the other Conventions, to appoint a County Executive Committee. The following persons were appointed: Messrs. B. C. Christy, H. F. Eggers, John Herron and Jos. B. Butler.

The Convention then adjourned *sine die*.

CONVENTION NO. 4.

Senate.

The delegates to this Convention first assembled in the room of the Court of Quarter Sessions, to nominate two candidates for the Senate. They were called to order promptly at ten o'clock by Mr. Joseph Dilworth, who said: "As Chairman of the County Convention, I will call you to order, and preside until permanent officers are chosen. The first thing in order will be the election of temporary Secretaries."

Messrs. B. W. Morgan, W. H. Barker, R. S. P. McCall and R. G. Atkinson were chosen.

LIST OF DELEGATES.

The list of election districts was then called over, and the delegates presented their credentials as follows:

PERMANENT OFFICERS.

The chairman now announced that as the list of delegates had been gone over, the first thing in order would be the election of permanent officers.

Mr. B. B. Coursin—I nominate Col. J. H. Stewart.

Mr. Blakely—I nominate Arthur Hobson.

Mr. Hobson—I positively withdraw my name.

Colonel Stewart was then chosen permanent chairman.

On taking the chair be said: Gentlemen—We have not come together this morning for speech-making, and I couldn't make a speech if I tried. I only desire to thank you for the honor conferred upon me, and I hope by your assistance to make all our proceedings harmonious. I trust that we will go to business earnestly and put in the field such a ticket as will show to the world that old Allegheny county is still loyal. Gentlemen, again thanking you for your kind partiality to me, I will now announce the Convention ready for business.

Messrs. Charles Jeremy and H. F. Dunham were then elected Vice Presidents, and the temporary Secretaries chosen to act in that capacity as permanent officers.

DELEGATES TO SHOW THEIR HANDS.

Mr. B. W. Morgan—I now move that we proceed to nominate two candidates for Senators, and that the voting be done *viva voce*. The motion was carried.

Mr. Mackey—I move that all who are not delegates be requested to stand outside the bar. A voice—"And stay outside, too." [Laughter.]

The intruders, candidates and all accepted this gentle hint and withdrew.

A delegate—"How about the reporters?"

Mr. Morgan—"Oh, they are necessary nuisances. We'll have to let them stay."

The reporters meekly accepted the compliment.

THE NOMINATIONS.

Nominations were then declared in order, and Messrs. James L. Graham, Miles S. Humphreys and Charles S. Fetterman were nominated, when the nominations closed and the voting was proceeded with.

While the Secretaries were footing up the vote, the Chairman announced that immediately upon adjournment of the Convention, the delegates from Pittsburgh would retire to nominate one candidate from the first, and one from the second Legislative District. The delegates from outside Pittsburgh would remain and nominate five candidates for the Legislature.

THE RESULT OF THE VOTE

was then announced as follows:

Graham	110
Humphreys	86
Fetterman	48

The Chairman—There being one hundred and twelve delegates in this Convention it will require fifty-seven votes for the election of any candidate. I, therefore, by this vote am called upon to announce the election by this Convention of the Hons. James L. Graham and Miles S. Humphreys as candidates for Senate from this county.

The announcement was received in silence.

Mr. Mackey—I move that the nominations be made unanimous.

The motion was carried.

The Convention then adjourned.

LEGISLATIVE CONVENTIONS.

FIRST CITY DISTRICT.

The Senatorial Convention having adjourned, the Legislative Assembly from the First District, comprising the first nine and the Fourteenth wards of Pittsburgh, withdrew to one of the Grand Jury rooms, where an organization was effected by calling Thomas Steel to the chair, and appointing M. F. Egan and J. J. Boothe Secretaries.

The roll was then called, and all the ten delegates answering to their names, nominations for a representative were declared in order.

R. W. Mackey nominated James Taylor, of the Ninth ward.

Ralph J. Richardson nominated David L. Fleming, of the Seventh ward.

Charles Jeremy here read the following letter of declination from Mr. Fleming:

PITTSBURGH, June 6, 1871.

Chairman of First District Legislative Convention:—My name having been mentioned in connection with the Republican nomination for Assembly from the First Legislative District, will you please state, for the information of the delegates, that I am not a candidate for the position, at this time?

Most heartily thanking my many friends for their kindly interest in my behalf,

I remain, yours, &c.,

DAVID L. FLEMING.

The declination was accepted.

Mr. Taylor was then nominated by acclamation, and the Convention adjourned.

SECOND CITY DISTRICT.

The delegates from the Second District also occupied a jury room, when W. H. Dennison was called to the chair, and G. W. Atkinson and John H. Stewart appointed Secretaries.

Mr. John H. Stewart nominated M. W. Edwards, and the nomination closing on his name, he was elected by acclamation, and the Convention adjourned.

THIRD DISTRICT LEGISLATIVE CONVENTION (TO NOMINATE FIVE ASSEMBLYMEN OUTSIDE OF PITTSBURGH.)

When the delegates for the city District Legislative Conventions had withdrawn from the Quarter Sessions Court room the delegates to the Third Legislative District Convention were called to order by Postmaster Stewart who by request acted as temporary Chairman, and announced as the first business in order the election of a permanent Chairman.

Mr. Coursin nominated August Ammon, of East Birmingham.

Gen. Blakely nominated Arthur Hobson, of Allegheny.

Mr. Ammon declined to run.

On motion of George D. Riddle, Mr. Hobson was then elected chairman by acclamation.

The permanent organization was completed by the selection of J. Dunovan, Joseph Wilson, (Snowden township) and Joseph Miller, as Vice Presidents, and V. Wilson, R. D. Jones, General Wm. Blakeley, C. L. Magee, Major George W. Murphy, W. H. Barker and R. P. McCall, Secretaries.

J. W. F. White—I move we proceed to receive nominations for members of the assembly; that the names be arranged alphabetically, and that when arranged the convention adjourn until after dinner, so that the slips can be printed.

OPPOSED TO LOG-ROLLING.

Mr. G. D. Riddle—I move to amend that resolution, that we proceed to the nomination and election at once. I don't see any use wasting time by adjourning over, and taking up the whole day.

A delegate—I hope that amendment will not prevail. I would like to see this business in proper order. I want to have all the names arranged so that I can see who are the candidates. I believe I have as good a right to know who is to represent me from the South Side as from the North Side, and I object to this haste.

Mr. Riddle—I don't think there is a delegate in this convention who has not made up his mind who he will vote for and think therefore we can go ahead with the business now just as well as any other time. I don't believe in this adjourning and taking up a whole day for a little business which we might as well put through at once. And we can do it better too. This adjournment is only giving a chance for "log rolling." It has done so before, and been an injury and it will do so now. I believe we can nominate and elect at once without trouble and without log-rolling and do the business better and more to the satisfaction of the people.

Mr. J. W. F. White—I think it is a great mistake to suppose that every delegate has made up his mind, I have only done so in relation to two delegates and we have five to select, now I want to know who are candidates. I want to have them before me in regular order; besides I think it would be better to adjourn because we can't get through now anyhow before dinner, and the delegates will want to adjourn then.

Several delegates expressed themselves in favor of adjourning.

Mr. Riddle—I will withdraw my motion then seeing that the delegates desire to adjourn—although it is against my wishes in the matter.

Mr. White's resolution was then adopted.

APPORTIONING THE REPRESENTATIVES.

Mr. B. Coursin, of Versailles, offered the following:

Resolved, That the Assembly ticket be apportioned as follows; One between the rivers; two to north of the rivers, and two to the South Side, and that each delegate on voting shall vote only for the number thus apportioned to each division.

A Delegate—I offer as an amendment that each delegate vote as he pleases. (Laughter.)

After some discussion, the resolution was laid on the table by a large majority vote.

VIVA VOCE VOTING.

On motion of Mr. White, it was also decided that the voting should be *viva voce*.

The Chair announced that nominations were in order, when a concert of voices was heard, but finally the business was reduced to a system, and each delegate presented the card of his candidate. The list when completed was read, as follows:

Nominations for Assembly—J. D. Ramsey, Second ward, Allegheny; Alex. Miller, McKeesport; H. K. Sample, Shaler township; Jno. K. Brown, Third ward, Allegheny; S. S. D. Thompson, Fifth ward, Allegheny; Robert Dilworth, Second ward, Allegheny; F. A. M. Kreps, Fifth ward, Allegheny; Harry W. Horbach, Wilkins township; A. Harper, Richland township; J. W. Ballantine, Temperanceville; A. B. Young, Robinson township; John Gilfillin, Upper St. Clair; Wm. N. Haymaker, Patton; J. McK. Snodgrass, (Braddock's); James Sanderson, Ross township; James G. Remaley, East Deer; Samuel Scott, (Elizabeth); D. N. White, (Sewickley); Gottlieb Faas, Fourth ward, Allegheny, Samuel Robinson, East Deer.

The Convention then adjourned until one o'clock.

AFTERNOON SESSION.

At a quarter past one o'clock the Convention re-assembled.

Mr. Marshall withdrew the name of James Sanderson, of Ross township.

THE STATE CONVENTION ENDORSED.

Mr. Wm. Bleakely offered the following:

Resolved, That we heartily endorse the nominations made for State officers by the Republican State Convention at Harrisburg, and will use our best efforts to promote their election.

Resolved, That we also approve, endorse and adopt the platform of that Convention as expressing fully, clearly and satisfactorily the views held by the Republicans of Allegheny county.

The resolutions were unanimously adopted.

THE "DISTRICTS" AGAIN.

Colonel Ed. J. Allen said a resolution had been offered in the morning and voted down. As he had voted with the majority he claimed the privilege of renewing the matter. He therefore offered a resolution that the delegates in voting, vote for two candidates from the Northside, two from the Southside and one from between the rivers. The old objection to the Convention was that the city could always overrule the rural districts. Now, Pittsburgh was out, but still the same objection would hold good of Allegheny. He thought by a division of the voting as indicated this would be avoided. He represented the middle district, and as they only asked for one representative they could not be charged with selfishness.

Mr. Marshall offered an amendment to the resolution, so as to allow one to Allegheny City, one to the Districts outside on the Northside, one from between the rivers and two from the Southside.

Mr. Kerr was opposed to any such division. He was ready to do what was right and fair, but thought this would be a change which would not answer the purpose. If there was to be a division he thought the Middle District should have two representatives as each of the others had a Senator besides Representatives.

Mr. T. J. Bigham thought as this was the first convention since the new apportionment, the matter was worthy serious consideration. If the rural districts did not make some provision, perhaps the city—Allegheny City—would attempt to "run the machine." He thought some distinction should be made.

He favored a classification by which Elizabeth and the country on that side of the river would be included in the South Side.

By request, Col. Allen then reduced his proposition to writing, with the amendments, as suggested, so as to include Elizabeth in the South Side and give one representative to Allegheny City and one to the outside districts on the north side.

A DELEGATE WITHOUT A BIAS.

A delegate—I don't represent either the North or South. I come here as a delegate for this county. We all come here to vote for *men*, not districts. [Applause.] Let us, like Lincoln, know no North or South.

Mr. J. W. F. White—This division is about as reasonable as it could be made, but I think we should not proceed with it now. I am personally in favor of single district representation, and think the law should provide for that. But the law don't recognize any such distinction, and we come here to vote under the law. You have no right to limit me to voting for certain persons. I have a right to vote for five Representatives, and I think every delegate should have that privilege. You have no right to pass a resolution which will make a delegate vote any other way. [Applause.]

If the party in its convention had recommended this method, and had thus endorsed and authorized it before we came here, then we would have had time to consider, and it would have some shadow of authority.

We ought to nominate jointly. To introduce the proceeding proposed at this late hour, would do much harm, and defeat the best aims of this convention. [Applause].

Mr. F. Magee "I move to lay the resolution on the table."

This motion was carried by a large majority.

THE VOTING

was then commenced, the delegates answering to the call of the roll by the Secretaries. The result was as follows.

Brown	11	Krebs	7
Ballantine	40	Millar	40
Dilworth	38	Ramsey	22
Faas	2	Sample	34
*Gillfillan	51	Scott	16
Haymaker	28	Thompson	31
Horbach	12	White	41
Harper	20	Young	33

The chair announced that forty-four votes were necessary to nominate. Mr. Gillfillan having received more than the required number, was declared nominated on the first ballot.

On motion it was decided to go into a second ballot.

Mr. B. B. Coursin moved that the names of all candidates who had not received twenty votes be stricken from the lists. Carried.

The crowd then commenced to gather up around the desk, and some confusion ensued, but in a few minutes order was restored and the voting was resumed.

THE LICENSE QUESTION.

While the Secretaries were footing up the tally lists,

Mr. Bigham offered a resolution expressive of an opinion by the Convention, to the members in the Legislature that the experiment of vesting the power of granting licenses with the County Commissioners was a failure and recommending that the law be changed and the authority for granting licenses be again placed in the hands of the Judges of the Court of Quarter Sessions.

Mr. Bigham in presenting the resolution said he had drawn up the act of 1867, by which the licensing power was taken out of the hands of the Judges and vested in the Commissioners. He had however become satisfied that the thing was a failure. He had nothing to say of the charges against the Commissioners. He hoped the accused would be proven innocent.

But he thought the power of granting license should be given back to the Judges. He therefore moved the adoption of the resolution.

Cries of "second it," "second it," were heard.

The paper however was laid over until after the ballot.

The following was the result of

THE SECOND BALLOT.

Ballantine	40	*Millar	45
Dilworth	41	Ramsey	37
Haymaker	24	*Sample	48
Harper	17	Thompson	26
Young	30	*White	44

The chair announced Messrs. Millar, Sample and White as the nominees on the second ballot.

The wildest excitement now prevailed, and for a few minutes nothing could be heard but a consolidated roar.

When the excitement had somewhat subsided Mr. Bigham moved the unanimous nomination of Mr. Ballantine from the South Side.

Cries of "No, "no," "no."

Mr. Riddle moved that Robert Dilworth be chosen by acclamation.

Cries of "I object," "Let us vote."

Eventually comparative order was restored, and a motion to strike off the names of all but the three highest, prevailed. The voting was then proceeded with.

THE THIRD BALLOT.

Ballantine	35	Dilworth	30
Ramsey	11		

The Chair announced the result, and said that there yet was no choice, as no candidate had received the requisite number of votes—forty-four.

Mr. Bigham again moved the election of Colonel Ballantine, whom he characterized as a gallant soldier.

Cries of "No, no."

A LITTLE SPARRING.

Gen. Blakely—I hope that won't prevail. The gentlemen speaks of Colonel Ballantine being a soldier. As for that, Major Ramsey was a soldier, and as good a one as entered the field.

Mr. Riddle—When you come to that, Mr. Dilworth was as good as any of them.

Mr. Coursin—Colonel Ballantine has received a majority of the votes cast, and therefore is entitled to the nomination.

Mr. Riddle—No you can't; he has'nt received a majority of the whole number of delegates.

Mr. Magee.—Davy Smith went in on a majority vote three years ago and—

Mr. Riddle—I don't care what Davy Smith did, a candidate must have a majority of all the delegates.

A Delegate—I move we strike off all but the two highest.

The motion was put and decided carried by the chair, when

ANOTHER SQUABBLE

ensued, some of the delegates claiming that they had not understood it, in the confusion.

The chair refused to have the vote taken again.

An appeal was taken, and the confusion increased.

The Chair eventually settled the matter by recalling the decision and declaring the three candidates before the Convention.

MAJOR RAMSEY WITHDRAWN.

Gen. Blakely (standing on a chair) Now, Mr. President, I am authorized to withdraw the name of Major Ramsey, with his thanks to his supporters, and in favor of Mr. Dilworth.

Several voices—"How's that," and hisses.

Mr. Ramsey (from the crowd)—Gen. Blakely, take that back.

Loud calls were now made for Ramsey, who stepped upon a chair and said: "Gentlemen, I merely withdraw from the canvass; I do not withdraw in favor of any one." [Cheers and cries of "that's right."]

A Delegate—I now move that we go ahead and vote for who we consider the best man.

Several voices—No more speeches; let us vote.

FOURTH BALLOT.

After several ineffectual attempts to start, the voting was finally resumed. It resulted as follows;

Ballantine	44
Dilworth	31

Before the result was announced, three cheers were given for Ballantine, following which the Chair read the vote.

A motion was made to adjourn.

The Chair asked the delegates to remember the Janitor.

Mr. Bigham attempted to call up his resolution.

And amid all the confusion the Convention adjourned.

Opening of June.
June, the month of roses, opened warm, very warm, which augurs a hot summer, and forcibly reminds those who have not yet attended the duty, that they should at once supply themselves with clothing suitable for the season, if they wish life to be at all endurable. In doing so, we advise gentlemen to call at Hespenheide & Co.'s, No. 50 Sixth street, and look at the choice assortment of summer goods, any of which will be made up for them at short notice, and at reasonable prices.

Wanted.—Everybody to know that S. Hamilton & Co., of 51 Fifth avenue, sell pianos and organs on terms to suit purchasers, and at the very lowest possible prices. Every instrument fully warranted.

Yeager's.
Mr. E. H. Yeager, No. 178 Liberty street near Market, has just received an elegant stock of summer boots, shoes, gaiters and slippers, comprising all the new styles and warranted to be well made and to give satisfaction in every respect. This is one of the best boot and shoe houses in the city, and any of our friends who need covering for their pedals can do no better than by investing money at 178 Liberty street. The house is one which can be recommended.

Tobacco—Where to Get It.
Country merchants and all who buy to sell again, will find a full stock of tobacco, cigars, snuff, pipes, &c., &c., at Megraw's wholesale and retail store, No. 45 Ninth street. Megraw is prepared to supply all orders in the most prompt manner. His long experience in the trade, extending through many years, has made him thoroughly familiar with the wants of dealers, and they will find satisfaction in dealing at No. 45 Ninth street.

Wanted.—A good stout boy, for store. Apply immediately at S. Hamilton & Co.'s, 51 Fifth avenue.

Decoration Day.—Decoration day, with all its attendant memories, tearful and sad, yet pleasant, has come and gone again; but that fact need not induce people—especially the young gentlemen—to forget that any day will answer for the decoration of the person in one of those elegant suits which can only be had at Messrs. Urling, Follansbee & Co.'s, southwest corner of Fifth avenue and Wood street.

Gent's superfine and super-stout English cotton half hose. Merino and merino feet half hose. Fancy cotton half hose. Gent's summer merino underwear, jean and linen drawers. Fine white shirts &c., &c., at the new stand Stocking store, No. 30, Fifth avenue.
JOHN DEGELMAN & CO.

W. W. Moorhead's No.'s 78 and 81 Market street, is the fashionable emporium for ladies' goods in the city. He has everything in the line of millinary and straw goods for the summer,—ribbons, laces, and flowers, glove, hosiery and collars, fancy articles for the toilet,—and all in such supply that no demand can exhaust the stock. Ladies' call there this afternoon while out promenading and look over the assortment.

MONEY TO LOAN.—Bonds Stock and Mortgages bought and sold by George B. Hill, corner of Wood street and Third avenue. tf.

I Have been using Sawyer's Barber Soap for about nine years, and I have no hesitation in saying that it is the best shaving soap I have ever used. It is now used in our family almost exclusively as a toilet soap and gives entire satisfaction. JOHN DOUGLAS, Pastor 1st Reformed Church, Pittsburgh, Pa.

PROPOSALS.

To Iron Manufacturers.
Proposals for the Metal Work of a First-Order Light-House, to be Erected at Body's Island, North Carolina.
OFFICE OF LIGHT-HOUSE ENGINEER, FIFTH DISTRICT, BALTIMORE, MARYLAND, May 25, 1871.
Sealed proposals will be received at this office until 12 o'clock of SATURDAY, the 17th day of June, 1871, from iron manufacturers only, for furnishing the materials and labor of all kinds necessary for the completion of the metal work of a first-order light-house for Body's Island, North Carolina, in accordance with the specifications and drawings.
The same to be delivered, at the expense of the contractor, on board a sea-going vessel or vessels, at any sea-port nearest to the manufacturer's workshops, and accessible to such vessels.
The bid should state the sum for which the ENTIRE METAL WORK, as shown on the drawings, will be completely, fully erected at the workshops, and then taken down after acceptance, and delivered as aforesaid, and should also state the date and day on which it shall be so completed and delivered, under forfeit as specified in the "Form of Bid."
The right is reserved to reject any proposal for any reason deemed sufficient.
Each bid must be accompanied with a bond, signed by the bidder and two competent sureties, (certified to be such by some officer known to the Treasury Department,) in the sum of ten thousand dollars, ($10,000,) that in the event of the acceptance of such bid, the necessary contract will be entered into within five (5) days after notice is given by the agent of the Light-House Establishment that the bid has been accepted.
Bond and security, in the sum of ten thousand dollars, ($10,000,) signed by two competent bondsmen, for the faithful performance of the contract, will be required.
A copy of the plans and specifications must be inclosed with the bid, as evidence as to the object of the proposal
All proposals must be signed, sealed and indorsed "Proposals for the metal work of a light-house for Body's Island, North Carolina," and then inclosed in another envelope and directed, pre-paid to the undersigned.
Any bidder may be present and witness the opening of the bids at the time and place herein-before specified.
Plans, specifications, and forms of proposals may be obtained from the undersigned, on application, by mail or in person, at his office in the Union Bank Building, Baltimore, Maryland.
